DIESEL DISTRIBUTION DEFECTIVE

Sir,-The distribution of diesel in some petrol bunks in the city is most irregular and defective. A number of vehicles will be standing in queue for their turn, but the owners of the bunks will be supplying diesel in barrels to others according to their whims and fancies. People having one or two vehicles are put to lot of hardship due to this defective distribution.

I appeal to the concerned authorities to immediately intervene and direct the bunk authorities to adopt proper procedure in diesel distribution and submit accounts in this regard. If possible, an inspector may be posted at the bunks for inspection.

I sincerely hope the authorities would take immediate steps in the matter and render justice.

READERS FORUM

Not Lure Sportsmanship

Sir,-During the third cricket test between India and Pakistan played at Bombay, some of the players of the Pakistan team expressed their resentment and indulged in acts of gross misbehaviour. Their grouse was against the umpire's decison in not declaring the batsman out. This incident occurred on the third day. This unpleasant situation could have been avoided had the players on their part realised the seriousness expected of them while representing a nation. Thanks to the Pakistan skipper, Asif Iqbal, who pacified his players the game thereafter continued peacefully.

Players on their part should realise that they are representing a Nation and by indulging in acts of misbehaviour they will not only be lowering their own image in the eyes of the cricket fans of all over the world, but they will also be doing the greatest disservice to the nation they represent. Umpire's decision should invariably be taken as final and it should be accepted as such with grace. Duties to be discharged by an umpire are very delicate and highly a responsible one. Sometimes it is quite possible that a little error may creep in (not at all intentional) while taking decision at a particular moment. After all he is also a human being and human errors which are not deliberate are to be condoned It is all a part of the game and the players should exhibit true sportsmanship which will not only enhance their image but it will also enhance the prestige of the nation they represent.

Kudos to the Indian team for their brilliant victory in the third test against Pakistan. Our victory was mainly due to fine efforts put in by all the players. My congrats to Kapil Dev for his being declared as the "Man Of The Match" which he richly deserves as his approach to the batting was really an attacking one at a time when the wickets on the Indian side were falling in quick succession.

AKADEMI HONOURS PUTTAPPA

Mysore, Jan. 11

Dr. K V. Puttappa was one of the great men of literary genius in our country, Prof. Uma Shankar Joshi, Chairman of the Central Sahitya Akademi, praised here yesterday.

Dr. Joshi presented the Akademi Fellowship, the highest recognition given bythe Akademi to noted litterateurs for their contribution, to Dr. Puttappa. He also presented the 1978 Akademi award to Dr. B G.L.Swamy for his Kannada book, "Hasiru Honnu".

The Chairman said many happy things combined in Dr. Puttappa to make him a man of genius. Besides giving the name of "Manasa Gangotri" to the University campus, the poet had produced an epic in his magnum opus "Ramayana Darshana".

While scholars like Prof. B M. Srikantiah were path - breakers and belonged to the first generation of Indian renaissance, Dr. Puttappa and others appeared at the harvest time and it was the second generation, he said.

Dr. Joshi described Prof Swamy as an illustrious son of an illustrious father, Sri D V. Gundappa. He was happy that a scientist had been given Akademi award.

Thanking for the honour, Prof. Puttappa suggested to the Akademi to bring out a comprehensive collection of the best writings in the Indian languages as was being done in the Soviet Union, under the tittle "Soviet Literature".

Dr. B.G.L. Swamy pleaded for educating the common man by bringing out the knowledge in different subjects in simple regional languages

President's Plea For Adaptable Education

Mysore, Jan. 17

President Sanjeeva Reddy today called for "an imaginative and adaptable eduactional system" which reflected the national objectives.

Delivering the 60th annual convocation address of the Mysore University, he said we could not offer our people a better life unless we gave priority to their needs in the aspect of national building activity and be selective in the design of the educational system so that it was in harmony with the aspirations and needs of our people.

The compulsions of the modern social structure—dynamic, competitive and ever-changing—called for an imaginative and adaptable educational system. We stood committed to certain fundamental human values. Our educational system must reflect those national objectives and so orient itself that those goals were achieved smoothly and with expedition, he said.

Praising the Mysore University, the President said it had contributed significantly to higher education and research. Many distinguished scholars like Dr. S. Radhakrishnan and Dr. K.V. Puttappa had burnished the image of the University and made it a heaven for those seeking knowledge.

No Sugar

Sir, - Since the introduction of sales of levy sugar to card holders through the fair price depots, the card holders are not getting their quota of sugar properly in Mysore City.

It is said that special quota of sugar for Christmas had been issued and the card holders were not aware of this. The depots have not issued this additional quota. When enquired, they say that they had not been issued any sugar quota for Christmas.

During December, the depots have issued only four kgs of sugar (November quota one kg and three kgs for December) During January only two kgs have been issued to each card holder even though the Department was aware of the Pongal feast.

The Food Department should issue suitable instructions to the depots to issue the quota of sugar to card holders correctly and publish the allotment of special quota of sugar to card holders through local daily newspapers

Opposition Unity Unlikely, Tulsidas

Mysore, Jan. 19

AICC (U) Treasurer Tulsidas Dasappa said yesteday that he was personally not hopeful of the immediate emergence of a consolidated Opposition to the Congress (I).

Addressing a news conference, he said that although the need for such a consolidation was being felt by the cadre in the Opposition Parties, the leaders, unfortunately, felt no need for it. They were still obsessed with their personal ambitions.

As regards changing the name of Congress (U), Sri Tulsidas felt that what was more important was the objectives and programmes of the party. The Congress of the pre-Independence no longer existed. Until a cohesive party emerged, there was no need to change the name, he said.

He said he welcomed losing of power once in a way. This would help for introspection. They would also know who were their genuine friends. No party should remain in power over a long period. Such a trend would be dangerous to the country.

Devaraj Urs's Yoga of Emanicipation

Sir, — Apropos your 10 1-1980 edition, many free thinkers felt hurt, by the uncharitable attributes, impinged on the Devaraj Urs Government, by one of our own Kannadiga brothers. Proverbially, "Curses are chickens, that return home". In all world governments success and failures are nothing but "rolling shields", in Time's non-stop cycle, racing against human endeavour And satire by democrats is the babe-of abortion, from the womb of opportunist politics. Many Kannadigas of neutral camps assert, that Karnataka under Devaraj implemented the reforms of the golden age of Ramaraj. This was the odyssey of-a crusade against ostracism Even leaders like Bommai and Deve Gowda personally congratulated Urs, on his eight year Yoga of Emanicipation.

To our ostensible re-valuation, Karnataka between 1972 and 1979, was the first amongst the 22 States, that produced a socio economic revolution. All 'gold' looks 'bronze' to the convexo concave eye lenses of our pseudo-patriots. Lord Krishna, in verse 9 of Chapter 6 of Bhagavad Gita says: 'He, who regards well-wishers, friends foes neutrals, mediators, the objects of hatred, relatives, the virtuous and the sinful alike stands supreme". In the prick of conscience, even his foes can pay this tribute to Urs, whose Altruism to all - the Majority and the Minorities - carries the value of 22 Carat-gold. But, immediately, with his constitutional resignation, a few of his trusted hypocrite-Ministers came out in their true colours So, is 'power thirst' greater than 'intergrity'? This is the Time's big question mark!

Progress In Kannada Typewriting

Mysore, Jan. 21

As many 33,431 students have passed in the Kannada typewriting Junior and Senior examinations over the last 13 years, Sri K. Ananthasubba Rao, inventor of Kannada keyboard, said here recently.

Participating in Meet the Press programme under the auspices of the District Journalists' Association he said that last year alone 4,430 in junior and 2,227 students in senior had come out successfully. This indicated the progress that had been made in the teaching of Kannada typewriting.

Sri Rao complained that if there was any obstacle in the way of using Kannada effectively in Government offices it was not the lack of Kannada typewriters or typists. It was mainly because of lack of enthusiasm among the officers.

He said he had also evolved a new method to manufacture printing types required by the printing presses by reducing the number of Kannada letters from 250 to 120.

FANTASTIC

Sir,—The third day of the fourth Cricket Test between India and Pakistan played at Kanpur is a red letter day in the Indian cricket history. Kapil Dev, 20-year-old fast bowler from Haryana, has set up a world record surpassing the record held by McKenzie of Australia in 1964. Kapil Dev during 1979 has captured 72 wickets surpassing the 71 wickets taken by McKenzie. McKenzie achieved this feat in 14 Tests conceding 1737 runs for an average of 24.46. Kapil Dev has done this in 17 Tests giving away 1965 runs for an average of 23.54. The figures quoted herein are on the basis of the records maintained by one Mr. Naresh Perashar, a statistician from Haryana.

India already holds a world record in the opening partnership between Pankaj Roy and late Vinoo Mankad, and world record by Sunil Gavaskar, for scoring a century in each innings THRICE during his test career so far.

Now by Kapil Dev's achievement our country has achieved the unique distinction of holding world record in three items Kapil Dev is not only a good bowler but is also a capable batsman who keeps the spectators entertaining with his attecking tactics even under adverse circumstances In fact, India's victory in the third Test was mainly due to splendid batting by this young lad. Kapil Dev's remarkable achievement is specially laudable because even fast bowlers of top class of West Indies/Australia/England/Pakistan etc. have not been able to achieve this.

Tiruppavai and Tiruvempavai

Mysore, Jan. 22

Great sanctity is attached to Dhanur-masa or the month of Margasira (December-January) and devotees are enjoined to have their bath in the rivers and offer worship before dawn. Young unmarried girls are specially required to observe this ritual, practising austerity and avoiding all luxury during this month. This observance by them is known as "Katyayini Vratam" as a reward for which they hope to get good and meritorious husbands, said Prof. M. V. Jambunathan while speaking at the Sarvabhasha Saraswathi Sangha here recently.

Andal among the Vaishnavite Alwars and Manikya Vachakar among the Saivite Nayanmars have composed poems on the subject of the observance of the Katyayini Vratam by maidens, and these are known by the names of Tiruppavai and Tiruvempavai respectively. The theme is the same in both the cases; Andal's work naturally refers to the worship of Krishna or Vishnu while that of Manikya Vachakar centres round the worship of Siva. Besides the religious significance, these works also have great literary merits, and are rated high by poets and scholars. These are invariably recited in temples, particularly during this period namely, December-January said Prof Jambunathan

Earlier Dr. D Ekanthappa, Professor, Mysore Medical College proposed a vote of thanks.

New Type Of Bullock Cart

Sir, — Bullock cart system is India's first largest transport system and daily carries more load than railways, truck transport and all other modes of transport put together in our nation There are about 13 million bullock carts in our country, and their numbers are increasing. They are most appropriate for use on our 'Kaccha' village roads.

But, one fact regarding our bullock carts need to be underscored. They are not only slow, but also carry small loads and cause great damage to the already damaged village roads.

There is urgent need for designing the prototype of a new bullock cart with the application of indigenous and inexpensive technology to enable it to carry loads upto 2.5 tonnes A third wheel in the front, as is provided in a 3 wheeler vehicle will lighten the load of the neck of the Bulls. Such new types of bullock cart should be made available to our farmers at a cheap price.

True Nature Of Dharma

Mysore, Jan. 28

The world around us is never static, it is ever changing. This led to the postulation of Kshanika Vada or Theory of Momentariness by the Buddhists. But change implies the existence of a state of changelessness. That which is permanent, never changing and eternal is called the Atman, which is but a part of the Brahmhatatwa or the Cosmic Principle, said Dr A L. Shivarudrappa, Reader in Philosophy, Manasagangotri while speaking at the Sarvabhasha Saraswathi Sangha here recently.

Anything that has a beginning must also have an end. One that is born must die sooner or later Dharma like truth is eternal and hence the appropriateness of the term Sanatana Dharma employed by the Hindu philosophers Similarly Brahma tatwa and Atman are also eternal ; they have no beginning and no end It must however to be noted that Atman is only a part of Brahmatatwa, just as a drop of sea water is just a part of the ocean This is the basis for the grand dicta—Ahama Brahmasmi, and Tatvam si enunciated by our Acharyas of yore Those who realised this truth are the mystics, it may be stated that this realisation is the real basis o Dharma said Dr. Shivarudrappa

Earlier, after Vishnu Sahasranama Parayana Prof. M V.Jambunathan, President of the Sangha welcomed the gathering Sri R Krishnaswamy proposed a vote of thanks.

Varsity Teachers Protest

Mysore, Jan. 29

The Mysore University Teachers Association has protested to the University for having kept the lecturers out of the Convocation held recently. The unilateral decision of the University not to extend invitations to the major sector of the teachers this year confirms that the hierarchy-conscious administration is out of tune with the times, it said.

The MUTA Executive, which met on Jan 23 under the chairmanship of Prof. K S Siddalingaiah President of the Association, has also expressed concern over the failure of the University to respond despite repeated reminders, to most of the representations made by the Association. It took note of the growing disenchantment of the teachers and has pointed out that the Association cannot remain a passive spectator if the teachers are taken for granted and their representations meet with continued silence.

FIGHT FOR FREEDOM OF PRESS

Mysore. Jan. 30

The fight for the freedom of press in the country had not ended. Perhaps it might require greater sacrifices in the coming days, warned Sri Khadri Shamanna, Editor, "Kannada Prabha", yesterday.

He was releasing a book on "Gandhiji as a Journalist" by SriK.V. Srinivasan and participating in the bicentennial year of the first Indian newspaper, "The Bengal Gazette", edited by James Augustus Hicky Sri Patil Puttappa, Editor, "Viswavani", presided.

Sri Shamanna recalled the contributions made by Mahatma Gandhi and Hicky to Indian journalism and their bold struggle to safeguard its freedom through their frank and fearless writings The battle started by Hicky for the freedom of the press continued even after 200 years, he said.

Supporting the views of Sri Shamanna, Sri V. P. V. Rajan, Editor, "The Mail", strongly criticised the double standard adopted by men in authority over the freedom of press. Almost everybody in authority swore by the freedom of the press, but the very same persons condemned it when it wrote something against them in public interest, he said.

The fact was that this oft repeated assurance of safeguarding the freedom of the press showed clearly that the press in the country did not enjoy full freedom which was very much essential in a democratic country.

This paradox, to say that freedom should be given and not to give it, should go. Indian Press knew how to safeguard its freedom It would continue its fight, Sri Rajin said

Sri Patil Puttappa warned that threats were already being held out against the press in the country. The coming events were already casting their shadows. Therefore the fight had to continue.

Dr Nadig Krishna Murthy, Head of the Department, welcomed and Sri Mahesh Chandra Guru proposed a vote of thanks.

DELIGHTFUL MUSIC BY BALAMURALI

Mysore, Jan. 30

Under the auspices of the Nadabrahma Sangeetha Sabha, Dr. M. Balamurali Krishna gave a delightful vocal music performance on Jan 27 at the Maharaja's College Centenary Hall.

With his gifted voice, Dr Balamurali started with Shobillu in Jaganmohini. He then rendered two rare ragas, Srimani and Rohini. The principal song was "Nannupalimpa" in Mohana. He sang the raga in detail and rendered the Kirthana with the proper emotion "Satyavantarigidu Kalavalla" in Bhairavi, a devaranama was sung very effectively. Among other things his Tillanna in Kalyani with Grihabheda looked like the trump card of the day. It is needless to say that he is a master in the art of Swara singing over which he has perfect control wherever he moves.

Sri Akella Mallikarjuna Sarma provided sweet and faithful accompaniment on violin. Sri Yella Venkateswara Rao and Sri T.H Vinayakaram provided the mridangam and ghatam respectively. These two between them engaged the audience in their tani with their skill, and there was not a head that did not nod in appreciationof their permutations and combinations. The performance was satisfying and very well attended thanks to the organisers.

CONGRATS

Sir,-Hearty congratulations to the Government of India for reviving from this year's Republic day "Bharat Ratna" and other national awards in recognition of exceptional and distinguished services of the high order in any field. While I immensely feel happy to find the names of Rev Mother Tersea (Mother of India) for the Bharat Ratna award and former Indian Captain Sunil Gavaskar for the Padma Bhushan award,I am really pained to find the following two names missing in the list of honours:

The name of J P for the Bharat Ratna award Posthumou l — he was in fact not for any post power or award though e richly deserved the National Award of the highest ord r while he was alive, and Kapil Dev, Indian fast opening bowler, who has set up a world record for taking the highe t number of wickets in a calender year for the Padma Bhushan award. I personally feel that this young cricketer should have been honoured. as the record set up by him is something which even the world's top class pace bowlers from West Indies/ Australia/E gland/Paki tan etc have not been able to achi e

The Nature Of Bliss Explained

Mysore, Feb 5

Every one in this world devoutly aspires for happiness. A happy state of mind reinforces one's powers and acts as an incentive for further auction. Very often happiness is found to be short-lived and is invariably followed by misery Self realisation, that is, knowing one's own nature and go l in life, is the key to eternal happiness, said Pandit Hanagal Yagneswara Sastry while speaking at the Sarvabhasha Saraswathi Sangha here recently.

If we are able to control the ramblings of the mind and keep it continuously at rest we can experience unalloyed happiness. Just as the umbrella protects us from the scorching heat of the sun our faith in God and self realisation would protect us from the vagaries to which the mind is prone and would confer on us true and lasting happiness. It must be realised that the soul is differen from the body and is more exalted If we understand this and try to control our mind we could enjoy Ananda or eternal bliss, he said.

Prof M V. Jambunat an President of the Sangha welcomed the gathering Sri P.. Krishnaswamy proposed a vote of thanks.

Typists Appeal To Corporation

Sir,-Many people are engaged in job typing at Lansdowne Buildings. These people are facing a lot of problems since most of them are unemployed and have to eke out a living only by typing work.

The shop owners atLansdowne Buildings may be paying a nominal amount to the City Corporation as rent But they are collecting three times the rent from the job typists. Almost all shops have two or three typists in front of their premises. A minimum of Rs 50 is being collected from each of them.

The owners are also harassing the unemployed joy typists by enhancing the rent every month and renting away the premises to others By this action of the owners, the job typists who mainly make a living out of their work, are thrown out of job.

It is to be seen when the concerned authorities would enquire and stop sub-letting at Lansdowne Buildings Hardly a few real owners are continuing their business. I request the City Corporation not to take drastic action against the job typists whose families are depending solely on this income.

If a typing pool is provided by the Corporation for job typists at a nominal rent the helpless unemployed job typists will remain ever grateful to it.

READERS FORUM

Cubicles For Typists

Sir, Regarding 'Typists' Appeal' (Readers Forum in Samachar dt. 6 2 80), I would like to make a suggestion.

During my recent visit to Bombay, in the main throughfare at Dadar, I came across a number of Cubicles specially constructed for job typist. These cubicles are light in structure and occupy minimum space—something like our own cobblers' minishops provided by the Corporation, but slightly larger and more spacious. If similar cubicles are provided by the Corporation, it would help the typists a lot God knows the typists are a harassed lot and they deserve all sympathy from the authorities

Tomorrow - Dark Sun In The Sky

Mysore, Feb 15

People in India, including Mysore, will have the rare opportunity of witnessing the most fascinating solar eclipse tomorrow afternoon.

The sun and the moon along with the earth will take up positions for a spectacular show in the sky — one of the most important astronomical events of the century.

The "show", against the back-drop of a deep blue sky, will have several climatic scenes worth watching.

Besides the sun peeping behind the moon plunging a strip of the earth into darkness for a brief two minutes, the planets Mercury and Venus will peep out in the beautiful evening sky darkened by the eclipse. Numerous stars, including Sirus, Vega and Pollux will come out.

The shadow cone of the eclipse will first touch the surface of the earth in Atlantic Ocean, approximately midway between Ascension Island and Freetown Sierra Leone, at 12 40 pm Indian Standard Time Travelling eastwards, the shadow cone will cross the Greenwich meridian and then cut across continent Africa before crossing the equator and approaching the Indian peninsula.

At 3.39 p.m. IST, the shadow cone will touch the west coast of India, about 30 km. south of Karwar. The people there will be the first to witness the total solar eclipse, for the first time in this century. Then, for the next 17 minutes or so, the shadow-cone will be over the Indian peninsula. Crossing Karnataka Andhra and Orissa, it will move over the Sun Temple of Konarak before leaving the east cost of India near the mouth of Ganga at 3 56 p m IST.

Although a partial solar eclipse will be seen all over the country, only on the track of totality will the complete effect be seen. The track of totality is a band, 1,500 km long and 115 to 128km wide, obliquely cutting the Indian peninsula At every point along the track, the eclipse will be seen for more than two minutes.

92% AT MYSORE

Mysore will not come under the path of totality. Although we miss the total eclipse, still we could see 92 per cent of obscurity The partial eclipse begins at 2 47 p.m. and ends at 5 03 p m. However, the Hindu calendar says that the eclipse begins at 2 21 p m and ends at 4 52 p.m

Although the fantastic event will not repeat in the same place for the next 360 years, it will be equally the most dangerous to the eyes, if seen without proper precautions.

HOLIDAY NOTICE

"Samachar" Office will remain closed tomorrow on account of Solar Eclipse and Mahashivaratri Parane. Hence, there will be no issue of 16-2-80.

ECLIPSE PARALYSES LIFE IN CITY

Mysore, Feb 18

It was a pleasant evening in the afternoon a rare phenomenon in the city on the solar eclipse day on last Saturday

Those enthusiasts who dared to peep at the eclipse unmindful of the warnings by the press and the radio had to remain content seeing only a partial eclipse. Those who did not see the eclipse and failed to watch the weather around them really missed something rare in their life.

Thanks to the lot of publicity and repeated warnings, by noon the city had worn a deserted look. Shops and other establishments remained closed. Shows in cinemas were suspended. Hotels had no customers and the residents safely locked themselves inside their houses.

Traffic in most parts of the district during the hours of the eclipse was almost nil, according to Police Superintendent L Revannasiddiah.

During the drive from Chamarajanagar to Mysore, a distance of over 60 kms, he saw no vehicle on the road, excepting the one which belonged to the Milk Dairy and even that was plying fast to reach the dairy well before the crucial hour.

The first patch appeared on the Sun at the south-west corner at about 2.25 p m. Slowly the sun began to be obscured. Along with the gradual progress of the eclipse the weather too began to cool down. At about 3.41 p m., it was pleasant evening weather in the city with a cool breeze. The black patch had covered the sun maximum, leaving only a small portion of it, like a thin bracket. The reverse process began immediately afterwards.

During the eclipse, crows and other birds became disturbed. They began to fly in a restless manner.

At about 7 p m., there was another spectacle in the sky on the south western side. A rocket fired at Thumba made its appearance leaving a white and reddish smoke as it went past.

Bangalore, Feb. 18

No immediate political reaction is available here on the mid night dissolution of the Assemblies in nine States. But the legislators are happy that Karnataka is left out from the list.

If only Congress (U) President Devaraj Urs had continued to hold the Chief Ministership, either the MLAs would have forced an issue or the inevitable would have happened. Thanks to Sri U s, they are still there as MLAs.

The Legislature will meet from Feb. 25 for 15 days Interim budget will have to be passed during the session. Rumour goes that Assembly might be dissolved after the session.

UPROAR IN WRITERS' MEETING

Mysore, Feb. 19

Confusion prevailed following up o ir and exchange of words in the conference of Kannada writers convened by the Kannada Yuva Shakti on Sunday at the Maharaja's College.

Encouraged by the success of its "tar campaign" against English sign boards in the city, the Yuva Shakti had convened the conference of Kannada writers to demand that Kannada should be used in all walks of life.

After welcome by Sri Malali Vasantha Kumar, one of the organisers of the Yuva Shakti, Sri V. H. Gowda, President of Kannada Sahitya Parishat, District Branch, suggested that the Kannada writers participating in the conference should sign a pledge that they would send their children in future to Kannada medium classes only.

Pointing out a few writers who had sent their children to convents, Sri Gowda said that the Kannada writers should follow what they preached Otherwise, they had no moral right to ask others to send their children to Kannada schools

This resulted in arguments and counter arguments between the organisers and Sri Gowda. After uproarious scenes, Sri Vasantha Kumar and some other writers had to apologise to Sri Gowda. Arguments and shouting continued even after the meeting concluded between the two groups of writers.

Dr. Pu Thi. Narasimhachar, noted Kannada poet, who presided, said that Kannada still needed to be enriched if it has to become the medium for technical, medical and science courses

However, Dr. H. M Nayak, President, State Sahitya Academy, disagreed with Dr. Narasimhachar and said that Kannada had reached the stage of becoming the medium of instruction for all courses.

While a section of the writers signed the pledge proposed by Sri Gowda, another section is reported to have refused to do so Many of the writers who had been earlier announced as the participants were not present. Sri Vasanthakumar welcomed and Sri S Diwakara read the messages Sri M. Nataraj proposed a vote of thanks. After the meeting, the Kannada Yuva Shakti was dissolved.

Talk On Universal Peace

Mysore Feb 20

Every body in his world wants peace since, peace is a sine qua non for attaining happiness. Every one claims to work for the attainment of peace but peace appears to be very elusive. All thinkers are agreed that truth is the fundamental basis on which peace can be built and that untruth leads to strifes and wars, said Prof. M V Jambunathan, retired Professor of Statistics while speaking at the Sarvabhasha Saraswathi Sangha here.

History is replete with instance of people belonging to different races or different religions waging war against one another. Mutual jealousy, hatred and untruth are the real causes of confrontations and wars. Fear also is a contributory cause. Every individual should develop an attitude of sympathy, consideration and love towards others, following the ancient Hindu dictum "Lokah Samastah Sukhino Bhavantu"(May the whole world be happy), he said. Sri R.Krishnaswamy proposed vote of thanks.

Manasa Gangotri, he said that although the people did not support or subscribe to fascist tendencies they had not thought seriously as to how to check these tendencies. If the same attitude continued it would endanger democracy, he warned.

Sri Urs said he had come to remind the students and intellectuals as to their responsibility in strengthening democracy. It was unfortunate that the intellectuals instead of realising their responsibility had ignored to exercise their franchise during the Lok Sabha elections.

Dr Prabha Shankara, Director of Prasaranga, who presided, blamed the politicians for creating caste feelings during the elections. Instead of misleading the people they should guide them properly, he said.

Committee Chairman B Devaraj Sarkar welcomed the gathering. Vice-President Mohan Raj explained the problems faced by the students. General Secretary Shivalinge Gowda proposed a vote of thanks.

Unlucky-13

Sir, - G. R. Viswanath, Indian captain, was out for 13 in both the innings in the sixth and final cricket Test against Pakistan held at Calcutta. I feel this is the first time a batsman in a test match is out for 13 twice i.e., in both the innings. This has helped Viswanath in setting a world record.

Hearty congratulations to Kapil Dev who at the age of 21 has become the youngest Test cricketer to wear the double crown. By achieving this he has set up a new land mark to become the youngest test cricketer to hit the double of capturing 100 wickets and scoring 1000 runs in 103 years of Test cricket

11 New Ministers Sworn In

(From Our Correspondent)

Bangalore, Feb. 25

Seven Cabinet and four State Ministers were sworn in by Governor Govind Narain at a colourful function at Raj Bhavan this morning.

After his return last evening from New Delhi, where he had consultations with the Party High Command, Chief Minister R. Gundu Rao announced the names of the new Ministers, which was eagely awaited.

The New Ministers are Cabinet Rank : Sri Y. Ramakrishna, A.K. Abdul Samad, C. M Ibrahim, G. B. Shankar Rao, A. B. Jaknur, Dharam Singh, Begane Ramiah and M. M. J. Sadyojathappa.

Ministers of State, Smt. Manorama Madhwaraj, Smt. Renuka Rajendran, Sri D.B Pawar, K. Yenkatappa and Sudheendra Rao Kasbe.

Sri Rao said that there would be an another expansion of the Ministry after the Assembly sessions.

The portfolios of the Ministers are expected to be announced during the day. Attended by a large number of admirers and members, the Ministers were sworn in at a specially erected shamiana.

There was a mixed reaction over the Chief Minister's present expansion of his Ministry. Disappointment, despair and sheer sense of helplessness was visibly seen among some of the "defectors" who had deserted ex Chief Minister Devaraj Urs and changed their colours It is to be seen as to how they would react when the Assembly resumes its sittings this afternoon Some are still living on the hope that they would have their berths in the next expanded Ministry. Some members were apprehensive that keeping out of the defectors was only a prelude to the ultimate dissolution of the Assembly as such. Against this background the plea of some MPs before the Prime Minister Smt. Indira Gandhi for dissolution of the Assembly may be weighed and particularly Tumkur M.P. Sri Mallanna's strong case for keeping out the defectors is indicative of the mind of the some of the leaders so far as giving place for the defectors is concerned.

Sri Mallanna alleged that Sri Gundu Rao is supporting them. It is also said that Sri Bangarappa's group has come to dominate the party and it is to be seen whether he will continue to hold the post of the Party Chief, besides continuing as Minister. As it is, the choice is now left to Sri Bangarappa and in case he opts out for the Ministership, the party tag may go for a prominent member of the Rajya Sabha, it is said.

Nothing is so far heard from Election Commission about the filling in of seats to the Rajya Sabha and Legislative Council in the biennia election to be held shortly.

GOVERNOR'S ARRIVAL DELAYED

The swearing in was delayed by over half an hour, as the Karnataka Express which brought the Governor from Dharwar arrived two hours later. From the Railway Station, the Governor had to rush to Raj Bhavan.

All the new Ministers, excepting Sri Dharam Singh and Smt. Manorama Madhwaraj took oath.

Unusual Flash During Eclipse

Mysore, Feb. 26

A team of Aerobiologists from the Mysore University, led by Dr. A. Ramalingam, Reader in Botany, has been successful in taking photographs of an unusual flash of light during the final phases of total solar eclipse.

The three member team conducted aerobiological experiments to study the effects of total solar eclipse on Feb 16 on the diurnal variations and vertical gradients in the air borne microbes, at a sorghum field near Bandivada village, 14 kms from Hubli, on the Gadag Road.

While conducting the experiments, a series of seven photographs were taken during the eclipse. According to them, the total eclipse lasted two minitues and 33 seconds from 15 42.00 to 15 44.33 hours at that spot. A photograph taken 13 15 seconds before the total eclipse ended has recorded a very large corona, brighter and broader than that of the corona in any other photographs taken at the other phase of the eclipse.

The corona measured 2 8 times greater than that of the brightest one in area during other phases and 11 4 times that of the darkest period. The colleagues of Dr. Ramalingam have also observed this momentary flash visually.

According to Dr.Ramalingam who has taken the photographs with his Exakta Camera without using filters, this is the first photographic evidence for the "huge amount of intensity" reportedly recorded by the light recording instrument of the team of physicists lead by Dr. N Uma Kantha of the Karnataka University.

Dr. Ramalingam and his colleagues, Sri K. Suryanarayana, Lecturer and Sri J Sukumar, Junior Research Fellow, showed the photograps to newsmen yesterday.

HC Quashes Mysore Corporation By-Law

Publication In Local Dailies Must

Bangalore, Feb. 28

The Karnataka High Court has quashed the By-law 6 of the Mysore City Corporation providing an enhancement in the fee for slaughtering animals from 40 paise to Rs 1.70 each

Justice K. Jagannath Shetty has allowed a writ petition of Sri S. Dadaji Rao, a mutton merchant of ysore, Mchallenging the validity of the by law.

The Judge held that under the Karnataka Municipal Corporations Act, by law to become enforceable, should have been published in the official gazette and in local newspapers in Kannada and English. In the present case, the by-law had been published only in the official gazette

He said it was common knowledge that publication in gazette was nothing more than a ritual and would not benefit the common man who had no access to it. The idea behind the publication in newspapers was that an opportunity was given to persons likely to be affected to put forward their case.

Justice Jagannath Shetty declared the by-law as unenforceable and restrained the Corporation from giving effect to it.

Mini-CMs Came In Way Of Stadium

—GUNDU RAO

Mysore, March 3

Chief Minister Gundu Rao this morning accused that three or four persons who were acting as "Mini-Chief Ministers" in Mysore, the home district of the former Chief Minister Devaraj Urs had come in the way of implementing the scheme for the construction of a stadium here, when he (Sri Gundu Rao) was the Minister for Youth Services.

Laying the foundation stone for the Rs 1.5-crore stadium complex on the 119-acre Chamundi Vihar area, the Chief Minister said that these mini Chief Ministers had for over three years failed to come to a decision on selecting a suitable site for the stadium.

They wanted the stadium on the site of their own choice and they had made it a prestige issue. Instead of leaving this issue to these few individuals, the previous Government should have taken a decision realising that the stadium was meant for the city and not to satisfy these individuals, he criticised. He assured that the stadium construction work would commence in about a week.

The stadium work would be completed as soon as possible said Smt. Renuka Rajendran Minister of State for Youth Services, who presided. Sri F.K. Irani announced a donation of Rs 1 lakh on behalf of the Ideal Jawa Factory.

To All Whom It May Concern

My client M.G. Abdul Gaffar, was a tenant in Shop No. 481/2, Vasavamba Building, Ashoka Road, Mysore, belonging to the Kanvakaparameshwari Temple Committee. The said Committee took over possession of the said shop from my client on the ground that a new construction had to be made after demolishing the entire building, agreeing in writing to allot a shop to my client in the construction that would be newly put up. Corpn's 2 More Housing Schemes

Mysore, March 5

The serious housing problem in the country needed to be tackled in an effective manner, Chief Minister Gundu Rao said here on Monday.

Declaring open 640 houses constructed under different schemes with the assistance of the HUDCO by theCity Corporation at Bannimantap Extension, Sri Rao suggested construction of Janata Houses by spending about Rs 8,000 instead of spending Rs 3 or 4,000 as at present so that they could survive for a longer period.

Sri M Rajasekhara Murthy, MP, who presided, suggested formation of an industrial town on the 2 000-acre area near Yelwal and Krishnarajasagar Roads. He said the construction activity had been affected by the Rent Control and the Urban Land Ceiling Acts. Although they had been introduced with good intention, they had not served the purpose well.

Welcoming the gathering, Corporation Administrator H K. Shivananda said the Corporation had sent two more proposals of housing schemes. They were the second stage Bannimantap housing scheme for construction of 415 houses at a cost of Rs 33 lakhs and 210 houses at a cost of Rs 16 lakhs at Kasaba Hobli Plans were being drawn up for construction of shops at Kesare, Vidyaranyapuram and Vontikoppal. Executive Engineer Raghavendra Rao proposed a vote of thanks.

SADHU DIES IN HOSPITAL

Bangalore, March 5

The 68-year old Sadhu, whose arrest inSrirampuram here had created a sensation, died at the Victoria Hospital in the early hours today.

The Sadhu and three others, including a 50-year-old woman, had been arrested on last Sunday for allegedly using the blood of three children for performing the Tantric worship of Kali at the burial ground.

Police Comissioner Garudachar told newsmen this morning that the Sadhu, who refused to take any food yesterday, complained of chest pain in the night. He was rushed to the Hospital where he died after a few hours.

Till the end, the Sadhu evaded answers to questions during interrogation. The woman reportedly told the police that the Sadhu tore the photograph of the Goddess Kali a few days before his arrest stating that he had lost all his powers and would soon be in trouble.

Prohibition Cannot Be Successful, CM

Mysore, March 5

Chief Minister R Gundu Rao made it clear here on last Sunday that he was not in favour of Prohibition.

Inaugurating the three-star hotel "Kings Kourt", he said Prohibition would not become successful unless a change was brought about in the minds of the people Mere passing of law would not help in this direction. Therefore, he had no belief in the Prohibition policy.

As regards the sons of the soil' policy a rigid policy would not be possible. They had to appoint outsiders wherever local talent was not available Sri Rao said.

Mysore City could be developed into an important tourist centre by providing more facilities by taking the financial assistance from the World Bank or some other agency, he added

Sri K S Rao of Canara Bank presided. Sri M. Raghupathi MLC, was the chief guest. Sri L Vivakanand proprietor, proposed a vote of thanks.

Exhibition Comt. To Be Superseded ?

Mysore, March 8

The Mysore Dasara Industrial & Cultural Exhibition Committee, which is organising the Dasara festivities since 1974, is likely to be superseded by the State Government.

It may be recalled here that Chief Minister R Gundu Rao, at a function which had been organised by the City Congress (I) Committee to felicitate him at Town Hall recently had strongly criticised the way in which he Dasara exhibition was being conducted by the committee

Following this, now comes the demand by City Congress (I) Committee President K. Javare Gowda for superseding the exhibition committee

In a letter to the Chief Minister, Sri Gowda has alleged that the exhibition, which was formerly being held just for about 30 or 45 days was being continued even after seven months, by allowing gambling like "Thambula" and other activities.

There were also allegations on the committee regarding funds raised for children's mid day meal programme, alleged sale of fake tickets on the day of Dr. Rajkumar's nite, and missing of a large number of zinc sheets, he said

Therefore, the Government should immediately supersede the committee and appoint an administrator to take steps to organise the exhibition on behalf of the Government An inquiry should also be ordered into various allegations, Sri Gowda has demanded

Bangarappa Offers To Quit Cabinet To Retain Party Gadi ?

(From Our Correspondent)

Bangalore, March 8

It is strongly rumoured here that Sri S. Bangarappa, Minister for Revenue and Agriculture, who is also the KPCC (I) President, has written to Prime Minister Indira Gandhi stating that he preferred to remain as the Party President and offered to resign from the Cabinet.

Sri Bangarappa has taken this stand following a proposal by the party's central leaders to bring about a change in the Presidentship in the State in view of the appointment of Sri Bangarappa as a Cabinet Minister.

Sri Bangrappa's move has given a new turn to the political developments and in case Sri Bangarappa is reelected, many members, it is stated, have offered to follow him.

Allegations Baseless

—D J URS

Mysore, March 10

Sri D Jayadevaraje Urs, General Secretary of the Mysore Dasara Industrial & Cultural Exhibition, has strongly refuted the charges made by Sri K. Javare Gowda, President, City Congress (I) Committee, against the Exhibition Committee.

In a statement today,Sri Urs described the charges levelled by Sri Gowda as far from truth and politically motivated.

He said that the annual accounts of the committee were being audited regularly by theGovernment auditors.

The committee had contributed over Rs one lakh for the midday meal programme of school children. The amount had been deposited in a bank and a trust formed with the Assistant Educational Officer as Secretary.

FAKE TICKETS

The complaint regarding the sale of illegal tickets on the day of Dr. Rajkumar's nite was being investigated by the police. The allegation that a large number of zinc sheets were missing was baseless. The contractor had obtained a licence from the Government for running the amusement park in the exhibition area, Sri Urs said.

He also pointed out that the committee did not consist members from any one political party. The members had sacrificed their money, time and service for the revival of the Dasara festivities, Sri Jayadevaraje Urs said

HEAD POST OFFICE

Sir,- The Head Post Office at Nehru Circle is not well furnished since decades. The counters present a shabby look and the hand rests are worn out.

It has become a common experience for a person who goes to the miny counters here to hand over a money order or an article for registration to have his fingers injured while drawing his hand back from these miny counters, due to the worn out and rusty iron mesh Will the concerned authorities take action at least now to modernise the Head Post Office ?

CONG-U WORKERS HARASSED

—DJ URS

Mysore, March 24

Sri D. Jayadevaraje Urs, KPCC (U) General Secretary, and Sri K B. Shiviah, former Minister, complained here today that their party workers were being harassed on political grounds.

Addressing a news conference, they alleged that hay stacks of Congress (U) active supporters were being set on fire in villages. Sri Shiviah said that in Nanjangud taluk alone eight or ten such incidents had taken place. The police had failed to take action. It had become difficult for their supporters to remain as even Panchayat members.

Sri Urs said that which ever might be the political party in power, it was the duty of that Government to give protection to the common people. The Rural District Congress (U) Committee, which met yesterday, had considered this situation, he added.

With a view to assess the situation and induce confidence in their party workers, Sri Urs said he would be touring along with Messrs Mallikarjuniah, Rural DCC (U) President, Shiviah, B. Rachiah and Tulsidas Dasappa in all the 11 taluks from April 6 to 13.

Congress (U) President Devaraj Urs would be touring in Periyapatna taluk on March 30 he said.

Supporting the strike by the Junior doctors, Sri Urs said that there was no need for mushroom growth of medical colleges.

He also criticised the statement of former CITB Chairman B N Kenge Gowda on Sri Devaraj Urs, and demanded a probe into the conversion of areas earmarked for parks and other purposes as sites from 1972 onwards by the Trust Board

Varsity's "Volte Face"

Mysore, March 25

City Pressmen have criticised what they called the volte face of the Mysore University on its stand on the grant of affiliation of three new MedicalColleges.

In a press statement, they said that the University Senate had decided to recommend the grant of affiliation to the three medical colleges after protracted discussion The decisions of the University were accordingly published in the newspapers.

Now after four months, the University administration had come out with a clarification that the university had not granted any affiliation for starting the new medical colleges.

This reverse posture, they said, was adopted by the University after the Medical College students, who are on strike, met the Vice-Chancellor.

TnePressmen felt that it would not go to the credit of the university to shirk its responsibility and go back on its stand.

Hush Hush Deal By CITB?

Sir,-The injustice done to the public of Saraswathipuram by the City Improvement Trust Board, Mysore, by defacing the beauty of the extension has already been brought to light.

Now again, there is an explosion of the secrecy of the illegal actions, seem to have committed by the concerned officials. It is learnt that they have distributed plots reserved for "District Commercial Complex" such as Regulated Market, etc., probably, amongst one's own kith and kin and their favourites, near K. G Koppal, adjacent to 80 feet road, near the Chamarajapuram Railway Station under-bridge. The sites of huge dimensions like 110'x195', 110'x115' etc., have been sold away to the concerned parties for a song, at the rate of Rs 10 plus 2 per sq yd.

It is an infringement of the law of the CITB to get more than one site. But there are unique instances of lucky persons getting more than one site, with least respect to law and procedure of the Board. Some sites seem to have been given as hush money to some and some other sites have been distributed, as per the saying, "Charity begins at home" to one's own relatives and favourites.

At the patronage of these officials, two ladies of Bangalore Jayanagar and Rajajinagar have knocked away two sites, an MLC, a champion of the public, has secured a site giving his Bangalore address although his residential address is of Mysore. Then come eight single site winners' site dimensions ranging from 90'x120' to 110'x195'.

The cat shall be out only when an urgent honest, impartial enquiry is conducted by the Government into this deal with a view to do justice to the public.

Mysore, April 3

The call for Mysore Bandh today failed to evoke any response.

Life remained normal in the city. IN-TAKE CUT NEEDED, GBS RAO

Mysore, April 5

The Government was keeping in mind the need to reduce in take in engineering and medical colleges, Education Minister G. B. Shankar Rao said here today.

Delivering the valedictory address of Primary School Teachers' Association, he said the in-take of students for these professional courses had been increased in recent years.

New colleges had been started bringing pressure on the Government and they had become more or less a business venture, with increasing admission of foreign students. If this tendency was curtailed, he was confident that the demand for starting new medical and engineering colleges would come down, Sri Rao said.

Temples In North Not Clean

Mysore, April 7

Temples which are considered as the abode of Gods are expected to be kept clean and tidy. But unfortunately many of the temples in our country, particularly those in the North, are not clean but abound in dirt and filth In fact a visit to the North Indian temples is sure to deprive anybody of the sense of devotion to God, said Prof S. Ananthanarayana while speaking at the Sarvabhasha Saraswathi Sangha here recently.

The temple priests or Pujaris are more intent on fleecing the devotees than on instilling them with true devotion to God. Among the temples of the North, the Shankaracharya temple at Srinagar is kept clean It is a fine temple commanding a picturesque view of the natural surroundings, he said.

The temple of Pasupathinath situated in Katmandu, the capital of Nepal, the only extant Hindu kingdom of the present day is noteworthy for its architectural beauty. The central Linga in the sanctum sanctorum has four faces, one in each direction The flawless chanting of the mantras by the Pujaris is very impressive. It is interesting to note that the Pujaris belong to families that hail from Gokarna in Karnataka, said Prof. Ananthanarayana. Prof M V. Jambunathan, President of the Sangha welcomed the gathering Sri A. Narasimha Sastry proposed a vote of thanks

LET THIS NOBLE DREAM COME TRUE!

Sir, - The Sankaracharya of Kanchi Kamakoti Peetham, Swami Jayendra Saraswathi, has given an excellent lead both in ideas and in action, by announcing that his Mutt was introducing a scheme, intended to develop devotion to God, patriotic feelings and discipline among college students. Under this scheme, college students, believing in religious and cultural heritage of India, would be presented a silver medal, certificate and be given financial assistance. Awardees seeking employment after their studies will also be provided recommendatory letters.

At a time, when college students take pride in molesting girl students (as some of them recently did in Orissa) and when God is being called 'bloody' by ministers (as Mr Bhowani Mukherjee, Parliamentary Affairs Minister West Bengal, did recently in West Bengal Assembly), the Sankaracharya has shown rare courage and vision.

Most Hindu leaders had a dream the way the Sankaracharya of Kanchi Kamakoti Peetham has but the main difference, has been, making it come true We bow down in front of the venerable Swami and his love for his country and its ancient culture and assure him that all Hindus are with him in his noble mission, and would help him make his dream come true, overcoming all odds.

EfficacyOf Yoga In Curing Diseases

Mysore, April 11

The efficacy of Yoga as Propounded by Patanjali is now well recognised the world over, and allopathic doctors also recommend Yoga treatment, particularly to patients suffering from heart diseases. The practice of Raja Yoga, otherwise known as Ashtanga Yoga, is now found to be a specific cure for hyper-tension, blood pressure, palpitation of the heart and other cardiac disorders, declared Dr. Ekantappa, Professor, Mysore Medical College while addressing the Sarvabhasha Saraswathi Sangha here recently.

Leading Indian cardiologists like Datey, Gokal, Nair and Taneja have with one voice acclaimed the efficacy of Yoga in curing several diseases otherwise found to be incurable. The prescribed posture for practising Yoga, namely, sitting erect, ensures that the pelvia, thereax abdomen and the head are all in one vertical line. Yoga, correctly and regularly practised, produces stabilisation of the mind, eliminates excitement and ensures mental peace. Pranayama or the process of inhaling retaining and exhaling the breath in a regulated manner, enables the oxygen to be diffused to all parts and cells of the body. It may be noted that the body cannot store oxygen and that no cells in the body can exist without oxygen. Yoga learned from a competent precepter or Guru and practised regularly enables fixation of the mind, Dharana, leads to contemplation or mental cognisance and ultimately to the attainment of perfect tranquility or Samadhi said Dr Ekanthappa.

Prof. M. V. Jambunathan, Sangha Presidens, welcomed the Supreme Court today acquitted Sri Sanjay Gandhi and former Information and Broadcasting Minister V.C. Shukla of all the charges in the Kissa Kursi Ka case.

By a unanimous judgment, a three-member bench held that the prosecution had failed to prove the existence of any criminal conspiracy between the two to destroy the film by burning it during the emergency.

It set aside the Session's Court order of February last year sentencing Sri Gandhi and Sri Shukla to two years' RI.

Spectacular Success Of Mysore Dairy

Mysore, April 14

The Mysore Dairy, started in 1964, has made a spectacular progress within a short period of 16 years.

The Dairy, which initially was started to handle a capacity of 10,000 litres per day, has now reached the capacity of 62,000 litres per day, and by May its capacity to handle milk will go up to 80,000 litres per day.

During the last flush season, the Dairy handled 62,000 litres of milk a day, which was beyond expectation, when compared to its handling capacity. The increase in the inflow of milk has also necessitated to run the Dairy in three shifts.

LADY PRESIDENT

The Dairy procures milk through the co-operative societies spread over in Mysore and Mandya districts. At the beginning three were hardly eight societies through which milk was being procured to the extent of 5,000 litres per day. Consequent on the switch over to Amul pattern societies, there are 301 societies with as many as 46,320 members. While Sathnur Society has a lady President, the TadagavadiSociety in Mandya has the distinction of having the first lady Secretary. The consolidated profit made by the 301 societies is Rs. 51 lakhs. While the procurement of milk from these socities was 48 78 lakh litres in 1976-77 it was 117 16 lakh litres in 1979-80, upto February.

Milk is transported from the societies through 22 procurement routes, both in the morning and evening paying Rs 35 lakhs per month to the farmers. All the input required by the societies are also supplied through these vehicles. The vehicles cover a distance of 6,000 kms every day.

In 1975, when the Dairy was taken over by the Karnataka Dairy Development Corporation, the sale of milk was hardly 3,600 litres a day. On Feb. 6 of this year it reached the highest of 41,114 litres as against the procurement of 41,224 litres. During this season, the sale of milk is expected to reach 45,000 litres.

DISTRIBUTION

The Dairy is distributing milk in Mysore and surrounding towns through 12 routes covering 140 agents, 88 children's nutrition centres and almost all Government and other institutions. The milk is supplied to places like Nanjangud, Chamarajanagar, Gundlupet, Kollegal, T. Narasipur, Srirangapatna, Malavalli, Mandya, Hunsur, K. R. Nagar and Periyapatna.

At the Dairy's initial stage, there was no scheme for preparing any products. Later on, the preparing of ghee, curds and other products began. The sale of ghee per day now is 300 to 400 kgs.

The Dairy has three chilling centres, one each at Chamarajanagar, Hunsur and Mandya. The capacity of these chilling centres is also being increased. A new chilling centre will be started at K R Pet soon

CHEAPEST

The expansion of the Mysore Dairy with a plant of one lakh litre capacity is also nearing completion The machineries are being erected. When this plant is commissioned, there will be scope for manufacture of butter, casin and other products.

The cost of processing per litre of milk in Mysore Dairy is 35 paise This is considered to be the cheapest when compared to other dairies

A-C Train Between City & Bangalore

BG Extension Upto Workshop

Mysore, April 15

Sri Jaffer Sharieff, Minister of State for Railways, assured here today that the conversion of Mysore-Bangalore rail line into broad gauge would be completed as early as possible, if enough funds were availab'e.

Presiding over the inauguration of "Tippu Express" here, he said the Railways were considering the introduction of a tourist train between Mysore and Bangalore, like the Taj Express, by the middle of August.

The Taj Express between New Delhi and Agra was being run mainly for the convenience of tourists. Similarly, they were thinking of running a train with air conditioned coaches for the benefit of tourists visiting Mysore, he said.

He said the extension of broad gauge upto the Railway Workshop in Mysore South was also under serious consideration.

Only a small portion of the work on the Bangalore - Gulbarga broad guage remained to be completed. Priority was being given to this project now, as this connection would benefit three States, besides providing direct connection to Delhi, he said

After the completion of this project, more attention could be given to the Mysore - Bangalore broad gauge conversion and Bangalore - Miraj rail line, Sri Sharieff added.

Tippu Express Flaged Off

Mysore, April 15

"Tippu Express"- the first train in the country to be named after a person - marched off from Platform No. 1 of the City Railway Station on its inaugural run to Bangalore this morning, Chief Minister R. Gundu Rao waving the green flag and the band set playing the music.

Earlier, at a colourful function held on the platform, the Chief Minister suggested a change in the timings of TippuExpress to suit office-goers. He suggested that it could leave Mysore at 7 a m , instead of 8 a.m. as at present, so that it could reach Bangalore at 10 a.m.

Pleading for one more train between Mysore and Bangalore, he said this would enable the KSRTC to divert more buses on other routes. He also requested the Minister to take up the Chamarajanagar Sathyamangalam rail link and complete the broad gauge work of Mysore Bangalore line early.

Minister of State for Railways Jaffer Sharieff, who presided, said a number of trains were being introduced in this region with a view to check the increasing population of Bangalore.

The train had been named after Tippu Sultan, the great martyr, so that the younger generation may know about such great men. Although there was some opposition in the Railway Board for giving the name of a person to a train, he said, he had made a beginning. He indicated that more trains would be named after great martyrs and freedom fighters.

Messrs M RajasekharaMurthy MP, welcomed the name given to the train. Both Sri Murthy and Sri V. Srinivasa Prasad, MPs pleaded for locating the diesel component unit at the Railway Workshop, rail link between Chamarajanagar and Sathyamangalam and early completion of Mysore-Bangalore broad gauge conversion and its extension upto the Workshop. Railway Board member Sachdev also spoke.

Welcoming the gathering, Railway General Manager T.M. Thomas said that the broad gauge work would be completed in about three years' time. As the work was progressing now, the Tippu Express, although a non-stop one, would have a few stops due to speed restrictions. When broad gauge was ready, the train would take a little over two hours as against three hours now. Divisional Superintendent P. M. Joseph proposed a vote of thanks.

Lay Off Due To Power Cut Imminent

(From Our Correspondent)

Bangalore, April 16

With the cent per cent power cut coming into force from midnight last night, there was a sense of despair among industrialists and factory employees here this morning

Buses carried men to their factories as usual. But later some were seen returning. By this evening a decision is expected on the future course of action. Lay off appeared to be imminent.

Industrialists blame both the Mysore Power Corporation and the Karnataka Electricity Board for bungling and creating the present state of affairs. It is no use blaming the Devaraj Urs Government, because during its long tenure the State at no time saw a cent per cent cut. The concerned Minister then had said that there would be no severe scarcity of power till June end. But the Gundu Rao Government looks helpless clipped by power politics from the neighbouring States.

Meanwhile, the KEB Chairman and other senior engineers are due at Cochin on Friday to discuss the possibilities of getting more power to the State to tide over the current situation.

Man Should Eschew Avarice

Mysore, April 18

Wealth acquired by a man should be utilised to help the poor and the needy, and not spent exclusively for his sensuous pleasures and gratification. One should develop a sense of righteous conduct, fairness and geberosity and avoid becoming greedy, said Pandit B.V. Narayana Sastry, retired Hindi Pandit while speaking at the Sarvabhasha Saraswathi Sangha here

A person in authority would always be surrounded by sycophants. It is only when he loses his position and is thrown into adverse circumstances he will be able to know who his real friends and well wishers are. He will then realise the truth of the saying "Sweet are the uses of adversity", he said

Prof M.V. Jambunathan, President of the Sargha welcomed the gathering. Sri A. Narasimha Sastry proposed a vote of thanks.

Scholarships To Harijan Students

CM's ANNOUNCEMENT

Mysore, April 19

Chief Minister Gundu Rao announced here last night that the State Government would award 90 scholarships of Rs. 1,000 each to merited Harijan students next year to mark the 90th birthday of Dr. B K Ambedkar.

Inaugurating the 89th birthday celebrations of Dr. Ambedkar at Asokapuram, he also declared that the 90th birthday next year would be a public holiday.

He said the Government would also try to continue the awarding of scholarships in the coming years

Stressing the importance of education, Sri Rao said that education was the only panacea for eradicating untouchability and caste differences. Therefore Harijans should make their children to go to schools so that at the later stage of their life they could acquire important positions in life.

Once an important position was secured, the society would respect that man irrespective of the caste he belonged, he said.

He also suggested to the Harijan youths to join the Military and Police in large numbers like the Coorg boys, as there was no distinction of caste there. This would also help in perhaps the formation of Karnataka Regiment like the Maratha or Punjab regiment in the Army, the Chief Minister said.

Strongly criticising fanning the feelings of casteism by political leaders, particularly during the elections, Sri Rao said that unless the leaders in the society gave up this attitude, there could be no removal of casteism, however much they spoke from the platforms, without sincerely following the same

There were two ways of removing casteism and the disparities in economic conditions and they were either by dictatorial methods or by persuasion They had adopted the path of persuasion to overcome these evils and if this path had to be successful it was essential that more and more Harijans should become educated, he added.

Speaking on the life and achievements of Dr Ambedkar, Law Minister Y. Ramakrishna said that compared to other States, no major incidents of atrocities had taken place against the Harijans in Karnataka.

Sri Y. Srinivas Prasad, MP, who presided, suggested formation of Civil Rights Enforcement Cell in all the four divisons in the State.

Plea To Put Off Degree Valuations

Mysore, April 19

Sri M.C.Renuka Prasanna, a teacher-senator of Mysore University, has appealed to the authorities of the University to realise that it was not only the right of the teachers working in First Grade College to value the answer scripts of both P.U.C and Degree students but their duty also as they teach both the P.U.C. and Degree classes.

In a statement, he has stated that the Board of Pre University Education has already drawn a good number of teachers for valuation from First GradeColleges by sending appointment orders last month itself and scheduled to start its valuation from April 23 and the Mysore University is yet to despatch the appointment orders. Hence, he appealed to the Controller of Examinations to start the valuation as soon as the P.U.C. valuation was over instead of starting it from April 28 as intended.

To quote from previous experience, as there was every possibility of the teachers who had to give instructions to the examiners at the University valuation centres being engaged themselves in PUC valuation also simultaneously, Sri Prasanna opined that it would be unacademic to replace such teachers without giving adequate prior notice to their substitutes. Any clash between the two valuations would affect the quality of valuation, particularly at University level as definitely there would be shortage of examiners

Brahmins Plea For Backward Tag

Mysore, April 23

The Brahmana Dharma Sahaya Sabha presented a memorandum to the Backward Classes Commission, which visited Mysore recently, to classify the Brahmin community as Backward according to their financial conditions.

The memorandum pointed out that Brahmins formed a negligible percentage when compared with other communities and in rural parts they were extremely poor and illiterate. There were also Brahmin tillers in villages as in other castes.

The Brahmin community might be forward in respect of education. But that did not mean they were advanced in all other respects. Brahmins were working as Class IV employees and even on daily wages in Government services. Therefore, it suggested that all Brahmins according to their financial position and not on caste basis should be classified as backward.

The memorandum also said the Karnataka Government had ordered all persons getting less than Rs 3,600 per annum as backward for granting some concessions. This limit should be enhanced to Rs 10,000, it pleaded.

Teachers' March At Davangere

About 100 teachers of the post-graduate centre and four principals of private colleges took out a procession in the main streets of Davangere on April 22 to draw the attention of the public towards preserving the sanctity of examinations and protecting the interests of honest students.

Holding placards, they went in procession to the Assistant Commissioner's office and presented a memorandum there drawing his attention towards the attack on a Commerce Lecturer by a group of students on April 17.

The Lecturer, Sri V. B. Muganur, was allegedly attacked by a group of 15 students with iron rods and stones, while he was going in a car with two of his colleagues. The reason for the attack is stated be that he had caught a student while copying in the examination and reported the same to the higher athorities.

The students are also alleged to have damaged the glass panes of the A.R.G. College by pelting stones.

An emergent meeting of the teachers of A.R.G. College, D.R.M. Science College, A.V.K. College and M.S.B. Evening College was held next day and the assault on Sri Muganur was strongly condemned. It decided not to undertake examination work in future, unless the university authorities provide suitable protection to the staff

The process on included Messrs Renuka Prasanna, Senate member and General Secretary of Federation of Karnataka University and College Teachers Associations, M. Veerabhadrappa, Syndicate member and Prof. (Smt) B Vimaladas.

Later, at a meeting, the teachers condemned similar incidents at Chamarajanagar, Hassan, Shimoga and other centres. Sri M. G. Eswarappa proposed a vote of thanks.

STRESS ON NEW TRENDS IN HISTORY

Mysore, April 25

Sri K.V. Shankara Gowda, former Minister, urged the need for a rural oriented economic policy in the country so that real economic development could start from the village level.

Inaugurating a three day first State-level conference on "Social and Economic Hisotry of Karnataka", under the auspices of the Post-graduate Department of History, he said that the present deteriorating economic condition was because of the urban-oriented economic policy. This policy, which was a copy of the west, was not suited to India.

Although Karnataka had brought forward a number of measures to remove economic disparity, the objective had not been achieved, he regretted.

Dr. M. H. Gopal, Emeritus Professor of Economics of Mysore University, who presided, said that historians in their historical studies had so far neglected the economic and social aspects of the people.

He said new trends were emerging in historical studies with the realisation that the study of history was no longer a single factor study. It was being realised that the study of history was a multi disiciplinary one. Therefore, historians should break the old tradition and make history more people-oriented.

Dr. Chitnis, Dr S R. Rao and Dr. Gopala Rao spoke. Prof. B. Sheikh Ali, Professor of History, welcomed the gathering.

The Useless Press Note Of KUWS & DB

Mysore, April 26

Several parts of the city are getting inadequte water supply since about a week, as already reported in these columns a few days back.

The office of the Executive Engineer of Karnataka Urban Water Supply and Drainage Board Division, has come out with a press note last evening stating that the water supply on April 25 and 26 would be intermittent, because of urgent repairs at Hongalli.

The press note dated April 24 was released to the press last evening and the local dailies have to carry the item only today. By the time the dailies reach the readers, the press note would have practically lost its meaning It is not that the office of the Executive Engineer is not aware that there are dailies in Mysore, to whom it could have informed about the water-supply position in time. In fact, in its press note, it has listed all the newspapers, including the local dailies It only shows the lethargic way of its functioning.

City Sportsmen Need Goading

—Chinnaswamy

Mysore, April 28

Sri M. Chinnaswamy, President of the Cricket Control Board of India, yesterday expressed his surprise that the colleges in Mysore had not entered the league matches this year.

Inaugurating the new turf wicket ground of the Mysore University, he said that Maharaja's College and other colleges had not participated in the league cricket matches due to lack funds.

He said if the University could not afford to provide funds, he would appeal to the citizens of Mysore to contribute enough money to help these youngsters to participate in the league matches. He was, however, confident that the Vice Chancellor would not allow things to go to that extent and would set apart some money from the University funds for these colleges.

Sri Chinnaswamy regretted that sportsmen and sports lovers in Mysore were a bit lethargic and they had to be goaded. No where else in the State they had such amenities as were available in Mysore. These facilities should be utilised to the maximum extent, he said.

Recalling his student days in Maharaja's College, Sri Chinnaswamy regretted that cricket today was no longer a way of life. It had been commercialised to a great extent. Each Test player today got as much as much Rs 10,600 in cash for every match. In their days, they played for enjoyment and not for money, he said.

Sri Safi Darasha and Sri M.N. Parthasarathy, distinguished cricketers of yester years, spoke.

Vice-Chancellor K.S. Hegde who presided, assured to provide funds to the local colleges for playing in the league matches. Capt Veeraraj Urs, Director of Physical Education, welcomed the gathering. Sri Chikkavenkatappa, Assistant Director proposed a vote of thanks.

Rehabilitation of Vedic Religion by Shankara

Mysore, May 6

It was Shankaracharya who really rehabilitated Hinduism and gave it a new life and vitality. By his unassailable logical arguments he demolished the entire set of postulates on which other religious faiths rested, atheistic, agnostic or those opposed to the sanctity of the Vedas. He also condemned the cult of violence practised by some sections calling themselves as Hindus, such as the Kapalikas, Shakthas, etc. and restored the Vedic religion to its pristine glory, said Prof. M. V. Jambunathan while speaking at the Sarvabhasha Sarswathi Sangha here recently.

Adi Shankara's literary output also was considerable. He has composed a large number of stotras or nymns, and has written authoritative and exhaustive commentaries on three works, the Bhagavadgita, the Brahma Sutras and the Upanishads-collectively called by the name Prasthana Thraya, he said.

At a time when travel in the country was beset with difficulties and hazards, he trekked the whole country passing through jungly tracts and mountainous regions, holding academic discussions with scholars and the protagonists of other religions, convincing them of his stand and converting them to his view. By his irrefutable logic Adi Shankara was able to overthrow all non-Vedic faiths Buddhism was almost completely extirpated from the land of its birth. He dedicated himself to the service of the people disseminating true Vedic knowledge and preaching the doctrine of Adwaita

Dr. A. Ranga Iyengar proposed a vote of thanks

Delay In Ore Shipments To Iran

Mysore, April 7

Iron ore shipments from Kudremukh in Karnataka to Iran is not likely to start by August this year, as scheduled.

Under an agreement between India and Iran, agreed at the time of the Shah of Iran, India is to supply 7.5 million tonnes of iron ore to that country over a period of 20 years from the Kudremukh deposits.

The agreement was entered with Iran in 1975, Iran agreeing to extend a soft loan of 630 million dollars to be repaid in 31 equal instalments, five years after the date of financial acquirement, i.e. from 1981.

Iran agreed to buy the ore concentrate from Kudremukh to produce sponge iron utilising the vast resources of gas and oil it is having. It also works out cheaper for Iran to get iron ore shipped from the nearest Mangalore port than from some other port. Under theagreement, it has agreed to pay a base price of 22 dollars per tonne.

Kudremukh Iron Ore Project is the biggest magnetite iron ore mine in the world Located in the midst of iron ore hills, in a picturesque terrain, the area is estimated to have 1000 million tonnes of magnetite ore, having an iron ore content of 39 per cent. The low grade iron ore will be converted into concentrates before exporting.

The first discovery of the ore deposits in these Western Ghats was made in 1913 by the late P. Sampath Iyengar, the pioneer geologist. In 1964, the National Mineral Development Corporation got associated with the project.

The total cost of the project including infrastructure facilities for power and port is Rs 647 crores. The project will employ the latest technology for ore exploitation and concentration. Kudremukh, also called Malleswara, which was practically inaccessible, has today become a centre of activity with huge machines and buildings and a self-contained small town with about 1,800 houses. About 25,000 people are engaged in the project work. When the operation commences, about 2500 people would get direct employment opportunities.

The first stage of civil works and establishment of machineries for exploitation of the ore has been completed. Trial runs in some cases have been done. The 67-km Kudremukh Pipeline—the first of its kind in the country—to Mangalore is also ready.

Although Indian engineers have set everything ready to start ex-

Ore To Iran

(Continued From Page One)

ploration of the ore, due to political developments in Iran, it has become uncertain now as to how much ore Iran would be able to buy. The feeling is that it might be able to take only a part of the quantity it had agreed earlier. The visit of the Iranian team to find out a solution in this regard is also delayed.

Out of the 630 million dollar soft loan Iran had agreed to give, India has so far received only 255 million dollars. Under normal circumstances the project should have received more money from Iran. Besides, Iran has not so far founded India regarding the first shipment of ore due in August. The stalemate, however, has not affected the progress of the project work.

In view of these developments the Government of India has initiated lot of exploratory work. Efforts are being made to find a market for the Kudremukh ore in Nigeria and Libya. China is also stated to be showing keen interest in this regard.

PLANS TO REVIVE KHEDDA

Bangalore, May 8

The Government was seriously considering the proposal to revive the world-famous Khedda operations, Chief Minister Gundu Rao told the Assembly yesterday.

He said the operations had been stopped following the execution of the Kabini project. He had asked the officers to select a suitable alternative location to revive the operations.

The Chief Minister said he was personally opposed to conversion of the palace atop the Chamundi Hills in Mysore into a hotel since he felt that such a step would violate the sanctity of this pilgrimage centre.

The Government was keen on developing the hill into a tourist centre without spoiling its sanctity. The Nehru Loka proposal had been dropped due to paucity of funds, Sri Rao said.

Mysore, May 8

Sri H. K. Shivananda, Administrator of the City Corporation, yesterday inaugurated the departmental mail motor service of the P & T.

He expressed the hope that the take over of the mail motor service, which was hitherto operated by a private agency, would enhance the operational efficiency of mail service in the city.

Sri K. Vijaya Kumar, Divisional Information and Publicity Officer, presided.

Sri Shivashankar, Senior Superintendent of Post Offices, who welcomed the gathering, said that Mysore was now on par with other cities in India. There were 56 post offices, including two delivery offices, and one head office in the city. Delivery post offices would be opened shortly at Yadavagiri, Udayagiri and Siddhartha Layouts. New Post offices were proposed at Nanjumalige Circle, Metagalli Extension and Devaraja Urs Road. An average 45,000 letters were distributed per day.

Mysore is the third city in the State to have the departmental mail motor service. The other two cities are Bangalore and Hubli. Sri S. Balasubramanya proposed a vote of thanks.

Karnataka May Take Assam Turn

—WARNS KHADRI SHAMANNA

Mysore, May 10

With Inflow of large number of non-Kannadigas from neighbouring States into the State the situation in Karnataka was taking a turn similar to that of Assam, warned Sri Khadri Shamanna, Editor of "Kannada Prabha", here today.

Inaugurating the decennial celebrations of Chetana Kannada Sangha, Sri Shamanna said the people in Assam had risen en masse against the infiltration of large number of Bengalis. The influx of large number of Bengalis into Assam had not only affected the cultural traditions of the local people, but also their political and employment opportunities.

The situation in Karnataka was although similar to that of Assam, fortunately, it had not reached that proportion. Therefore, it was essential that at least now the State Government took all steps to safeguard the interests of Kannadigas in all walks of life, he said.

Sri Shamanna made a strong plea for top place for Kannada in administration as well as education. The learning of Kannada should be made compulsory for all people in the State, he said. He also suggested a university with Kannada as medium of instruction.

Dr. H. M. Nayak, President, State Sahitya Akademy, supported the views of Sri Shamanna and expressed the doubt whether Kannadigas like the Assamese could raise as one man to safeguard their interests.

Both Sri Shamanna and Dr. Nayak lauded the services of Chetana Kannada Sangha over the last 10 years. Sangha President S. Ramesh welcomed the gathering, Secretary R. Sudarshan and former President G. H. Nayak spoke.

The Value Of Brahmacharya

Mysore, May 12

There are sixteen main Samskara or purificatory rituals prescribed for an individual according to the Hindu Shastras. Of these, Upanayana or initiating the boy to commence his studies and taking him to the Guru or preceptor is very important The young pupil of Brahmachary as he is then called, has to stay with his guru rendering personal service to him, has to lead a disciplined life and learn the art of simple living in addition to his studies, declared Sri A S. Venkatanathan, Lecturer in Sanskrit, Mysore University while speaking at the Sarvabhasha Saraswathi Sangha here recently.

True education consists of the drawing out the inner talents of the pupil and enabling him to develop an integrated personality. The discipline to which a Brahmachari is naturally subject at this stage is not to be regarded as an obstacle but as an aid in shaping his personality and making him a useful member of the society he said.

Santhepet Merchants Observe Bundh

PROTEST AGAINST COOLIES' DEMANDS : 1 HURT IN ATTACK ON SHOP

Mysore, May 17

The month-old differences between the loaders and merchants of the Old Santhepet in the city today culminated in the merchants observing bundh, rejecting the demands of the loaders

A lone shop, Krishna Soji Depot, remained open in the area, while the rest observed a total bundh.

According to the Depot's Proprietor, Sri B. Mahalingappa, a group of merchants this morning came and asked him to close down the shop. But, when he refused saying that he was in sympathy with the demands of the coolies, some persons from the group attacked his shop causing it some damages and injuries to his nephew, Sri Channabasappa. Sri Channabasappa was seen bleeding from his nose, when this reporter visited his shop in the noon. Sri Mahalingappa has lodged a police complaint.

Police headed by DSP Vijayasimha visited the Old Santhepet and gave protection to Sri Mahalingappa, who said that he was not ready to close the shop "on principle".

While the coolies, whose demands include increased wages in view of the increasing prices of essential articles, had not turned up, the Grain Merchants were holding a meeting

Action On Merchants Demanded

Mysore, May 20

Shops in old Santhepet remained closed for the third day today as grain merchants continued their present agitation against the loaders.

A settlement is expected to be arrived at between the merchants and the loaders today. A delegation of the Grain Merchants Association is meeting the Deputy Commissioner to represent their grievances against the loaders The Loaders' Association Adviser K.Kempeere Gowda is also meeting the Deputy Commissioner, in whose presence an understanding is likely to be reached.

At a press conference last evening, the merchants alleged harassment by the loaders, although they had conceded 90 per cent of their demands for more wages They said they should have the right to engage any loader they liked, against the demand of the Loaders' Association that no outsiders should be engaged.

They denied that they were out to hit on the "stomach of the loaders" or to break their union

When pointed out that they had treated the general public lightly by closing their shops without prior notice and thus caused great inconvenience, they said it was not their intention to do so. They also denied that they had taken this step with a view t create artificial scarcity in the market.

Association President Chinnaswamy Mudaliar, Secretary P, Shivananda and Omkarappa explained their stand.

Meanwhile, the loaders also went in procession and presented a memorandum to the Deputy Commissioner urging action against the merchants under prevention of Black Marketing and Maintenance of Supplies of Essential Commodities Ordinance.

By their unilateral decision to close their shops without due notice, the merchants were causing inconvenience to the public and scarcity of essential commodities. As a result the prices were increasing, they said

Ramana Maharishi's Philosophy

Mysore, May 20

In his work 'Ulladu Narpathu' or the philosophy of existence, Ramana Maharishi has clearly explained Brahma Vidya or the knowledge of Truth. It is only Brahma or the Cosmic Soul that exists for all time, and so knowledge of existence is knowledge of Brahman said Sri N.V. Subrahmanya, retired Reader in Mathematics, whilespeaking at the Sarvabhasha Saraswathi Sangh here.

The all-pervasive Parabrahma or Cosmic Soul creates other things in the world without itself undergoing any change. This is also seen to be the essence of Adwaita which is not antagonistic to any system of philosophy but which is a judicious synthesis of all the philosophical systems. Any body who has understood this would be free from anger, malice, greed, pain, etc.

Even during his last moments Ramana Maharishi who had realised the truth of Adwaita did not exhibit any fooling of pain or grief, he was all smiles and it looked as though he voluntarily left the human body fully aware that the soul is indestructible and all pervasive said Sri Subrahmanya.

Prof M. V Jambunathan welcomed the gathering Sri S. V. Venkataramanaswamy, retired Senior Engineer, A I R proposed a vote of thanks.

READERS' FORUM

A Commendable Decision

Sir, We salute the Tirumala-Tirupati Devasthanams for their commendable decision to publish all ancient religious literature, including Puranas and Itihasas besides philosophical treatises. They have taken this decision acting on a suggestion by a national conference of writers of Sanskrit, Telugu, Hindi, Tamil and Kannada held in Tirupati recently. All the writers participating in this conference who were a party to this suggestion are to be equally commended.

It is heartning to note that about Rs. 5 crores would be spent on this publishing project, which will bring out books in Sanskrit, Tamil, Kannada, Telugu and Hindi. The only way of bringing the essence of the ancient scriptures to the common man is to make them available in the regional languages. T-T Devasthanams have set an example in this direction.

Besides popularising religious books among the scholars, students and general readers of these languages, this project would help bridge the gap between North and South, and would act as an excellent medium for national integration.

May we hope that other religious trusts and bodies would also emulate the example of T-T Devasthanams to popularise our ancient books among the masses.

READERS' FORUM

Punish The Guilty

Sir,-The tragedy that occurred today at Yelwal is similar to the one that occurred at Chasnala. Over 200 workers are reported trapped under the debris of an upcoming building that was being built by Machinery Manufacturing Company, a subsidiary of Mahindra and Mahindra.

Two hundred impoverished workers of this great country were wkrking on the spot The builder is a great name in the industrial firmament of this country. How could this happen unless these great people are callous about the lives of the workers? When such a huge mass of workers are working should not the elementary precaution of safety be taken ?

This tragedy betrays the attitude of the haves towards the life and limbs of the impoverished worker.

We wonder how safe our defence personnel are with the equipment supplied by Mahindras, who are the owners of this factory. They are also the civil contractors for several defence jobs How safe is our defence in the hands of these great industralists ?

We call upon the Government to institute an enquiry so that tragedies will not recurr and the guilty are exposed

The CITU Mysore Unit expresses its deep sorrow and conveys its condolence to all bereaved families and wish a speedy recovery to all those who are injured.

CM Returns To Face New Challenges

Berth For Srikantiah's Group in Cabinet ?

(From Our Correspondent)

Bangalore, May 30

Chief Minister Gundu Rao returned from Madras today after electioneering to face a stuffy political atmosphere in the State.

His chamber at Vidhana Soudha is ready to welcome him with the newly installed air-conditioners His room number 232 on the first floor is now fully equipped with air-conditioners to keep his chamber cool.

This is the first time in the history of Vidhana Soudha that the Chief Minister's chamber is provided with this privilege. His chamber with a face lift looks a vertiable beauty matching well with the famous sandalwood carvings of the Cabinet Chamber. The room is also lavishly furnished

But the political situation for him is not as good as the new look of the chamber. It is neither as cool as his air-conditioned room

The open remarks of Revenue Minister Bangarappa on the formation of Land Tribunals has encouraged the dissidents' activity. Sri Bangarappa is also reported to have said that he was still the KPCC (I) President. His resignation has not yet been accepted and hence he appears to have made this claim.

Meanwhile, pressure is being brought on Labour Minister C.M. Ibrahim, whose brother is involved in the Bhadravati murder case, to resign from the Cabinet. He is likely to submit his resignation soon.

Amidst these developments in the State some of the MPs from Karnataka are backing the creaking demand for the dissolution of the State Assembly.

It is not known clearly as to what steps the Chief Minister will take to counter these challenges One step that he is likely to take is to expand his Cabinet with major changes in portfolios. The expansion might take place before the Assembly meets on June 9

It is learnt that former Minister H C Srikantiah had been summoned by Sri Gundu Rao for consultations. It is to be seen whether Sri Rao will now accommodate some of those legislators who joined the party after the last Lok Sabha elections in the Ministry.

The Chief Minister is likely to meet the Governor in the course of the day and brief him the latest political developments. Sri Rao will be away on tour from tomorrow.

Why Some States Are Richer Than Others

BY K. R. G. NAIR

Bihar, the poorest State in India, has a per-capita income of Rs. 706, less then half of that of Punjab, India's richest State, which has a per capita income of Rs. 1,688.

The Indian States differ from each other considerably in terms of language and culture But as the sons-of the-soil policy becomes more and more prevalent in the States, living standards will also become increasingly dependent upon the State you live in and the level of production that takes place within it.

In a poor country like India, however, the existence of widespread interstate disparities is fraught with dangerous consequences So it is of interest to analyse the nature and causes of these disparities.

First of all, it is worth while finding out whether there have been certain States which have remained consistently rich or poor in relative terms over time. If such is the case, the question then arises as to why this so. One argument can be that while the 'rich' States have been breeding riches, poverty has merely bred people in the poorer States. Another is that the richer States are simply better endowed with natural resources so the poorer ones are forever doomed to poverty. If neither of these arguments holds water then other possible causes will need looking into.

But have the rich States always been so? Certain broad findings emerge for the period beginning 1950 51 One important conclusion is that the relative positions of the different States have hardly undergone any major change over the period. Tamil Nadu seems to be one of the few exceptions and has improved its relative position considerably part cularly between the 50's and the 60's. The exact opposite, however, seems to be happening to Uttar Pradesh and West Bengal

RICH AND POOR STATES

Another very interesting feature is that four States—Bihar, Orissa, Madhya Pradesh and Rajasthan—have consistentl occupied very low positions in terms of per capita income These four States can be dubbed as the 'poor' States of India The poor States together claim only about 1/5th of tha total domestic product of the Indian nation. At the other end of the scale, four States—Gujarat, Haryana, Maharashtra and Punjab—have continously been very high up on the per capita income ladder. These four can hence be termed the 'rich' States of India and together claim slightly more than a quarter of the total national domestic product.

Cong I Swept To Power In 5 States

AIADMK Romps Home In Tamil Nadu

Of the nine States for which mid-term elections were held last week, Congress (I) has won two-thirds majority in Gujarat, Rajasthan and Orissa, absolute majority in Punjab and Uttar Pradesh, while it is cruising for victory in Maharashtra, Bihar and Madhya Pradesh.

The only State to go the opposition way is Tamil Nadu where the AIADMK, led by the matinee idol Sri M. G. Ramachandran, has returned to power giving a stunning blow to the Congress (I)-DMK alliance.

It is a virtual repeat of 1972 "Indira Wave" in the Assembly by-elections, except in Tamil Nadu where it has received a crushing blow with the AIADMK capturing power winning 192 seats in a house of 234

The AIADMK has infact impraved upon its 1977 performance The Congress (I) alliance have bagged 69 seats (Cong I 30, DMK 38, Muslim League 1).

In Gujarat, in a house of 182 seats, the Congress (I) has bagged 140 seats out of 181, the Janata Party coming next with 22, followed by BJP 9, Janata (Charan Singh) 1 and Independents 9.

In a house of 324 in Bihar, Congress (I) has wrested 100 seats out of 178 declared so far, the Janata (Charan Singh) group 31, CPI 14 and BJP 10.

Out of 298 results declared so far in Uttar Pradesh, Congress (I) has captured 223 with Janata (Charan) being the only other party to get into double figures with 40 seats

In Madhya Pradesh, Congress (I) has won 127 of the 165 results declared.

Cholera has taken a toll of three lives in H. D Kote and surrounding areas District Magistrate S. Krishna Kumar, who has declared both H D Kote and Gundlupet as cholera threatened areas, has also banned shandies at Beechanahalli, Hampapura, H.D Kote Town and Saragur Town.

Rich And Poor States

(Continued From Saturday Issue)

It is usually said that population increases faster in the poorer areas than in the richer ones. If this were true for the areas which constitute the States of India, then an important reason for disparities could be the relatively higher rate of population growth in the poor States.

Facts, however, seem to go very much against such an argument. Between 1951 and 1971, while the population of the rich States increased by 60 per cent, the poor States experienced only a 53 per cent increase. In 1951-61 while all the rich States had a percentage increase in population higher than that for India as a whole, only two of the poor States - Madhya Pradesh and Rajasthan - were thus placed. Further in both the decades, Bihar, with the lowest per capita income, also had the lowest per centage increase in population among these 8 States, while rich Haryana, had the highest.

It also seems baseless to argue that the poor States lack natural resources. They have about twice the area and around one and half times the population of the rich ones. And the largest of these 8 States in population is 'poor' Bihar, with a population 5 and half times that of Haryana which is the smallest State on this basis. Poor Madhya Pradesh, the largest of these in area, is in fact ten times larger than rich Haryana, the pygmy again in terms of area.

MINERAL RESOURCES

The picture is no different if we consider other natural resources. Bihar, the poorest State has about 30 per cent of India's mineral production. And the richest State in India—Punjab—barely produces any minerals at all. Indeed the better half of India's mineral production—52 per cent to be precise—comes from the poor States. The better off States have only 27 per cent.

RAO TO HEAD PARTY ALSO?

Bangalore, June 3

Adverse comments have already started in political circles here over the New Delhi report that Chief Minister Gundu Rao might be appointed as the KPCC (I) President for the time being.

Some are pointing out that the situation would be on parallel with the Centre where Prime Minister Indira Gandhi was also holding the party post.

It may be recalled that Sri Devaraj Urs was also holding both the posts and later fell into the disgrace of Smt. Gandhi.

Rich And Poor States

[Continued From Yesterday]

The differences therefore would seem to be due to differences in the degree of development and utilisation of resources. Since India is still predominantly agricultural, let us consider the distribution of cultivable waste land among the rich and the poor States. Cultivable waste is land which can be cultivated by already known techniques, but is left uncultivated. More than half of this—55.6per cent to be precise—is in the poor States. Only 11.6 per cent of such land lies in the rich ones

The development of overheads and even of education also seems greater in the rich States than in the poor ones. Road availability per capita in the richStates is 1 and 1/3 times that in the poor ones. And while the poor States consume only 1/6th of total electricity in India, the share of the rich ones, with a much smaller population is almost double.

All the richStates have a higher literacy rate than the poor ones the highest in these 8 States is in Maharashtra—39.2%—more than twice in Rajasthan In total the literacy rate in the rich States is more than 1.7 times that in the poor ones

States like Bihar, Madhya Pradesh, Orissa and Rajasthan have continued to remain relatively 'backward' in terms so the disparities between the States can be ascribed neither to changes in population nor to differences in natural resource endowments. There thus appears to be nothing permanent of irreversible about the poverty of the less developed States of India. The disparities in overhead development and education indicate that the differences between the rich and the poor States of India could be removed by proper development efforts and planning —DEPTH news, India.

RESERVATIONS UNDER ATTACK

BY A. J. SINGH

"Out of 600 lecturers in Government colleges in my State", says Manchar Kashyap, "there are only six of us from scheduled castes, when according to the reservation quota there ought to be over 90".

"And only one of us has become a Principal, something which would not have happened for decades but out-of-turn promotion". The other 18 principals and 524 lecturers are high caste.

"Yet the high castes think that the promotion of one of us is an act of injustice. Isn't it the other way around by all measure of common sense?"

Reservation for scheduled castes and tribes had become an issue during the last days of Janata rule. And although those opposed to reservations are now lying low after the coming to power of Smt. Indira Gandhi, they may yet surface again. So the pros and cons of their argument need to be examined.

Reservations in services for scheduled castes and tribes began 30 years ago. The logic was enunciated by late Dr. Ambedkar, India's first law minister. "Although theoretically it is good to have the principle that there shall be equality of opportunity, there must at the same time be a provision made for the entry of certain communities which have so far been outside the administration."

Accordingly articles 335 and 16(4) were incorporated into India's constitution reserving 15 per cent of government posts for scheduled castes and 7.5. per cent for scheduled tribes.

It is against this policy that the anti-reservationists have mounted their guns. In the government's class I and class II services however the quota fixed for these communities continues to be more than half vacant. The only place where the quota is full is in the class IV services. "This is because no caste Hindu would apply for the post of sweeper or peon", says a Harijan leader.

THE ARGUMENTS AGAINST

What are the arguments advanced by the anti-reservationists? Firstly they ask that in all citizens of India are equal why are there reservations for some and not for others? Then they argue that out of turn promotions in government services should be ended as they are undeserved. They also believe that job reservation has led to inefficiency in services.

On the question of equality 35-year old Dalip Singh, a harijan and a practising lawyer asks, "How can 'unequals' be treated as equals? My family have been sweepers and scavengers for generations. We were and are still the lowest on the Indian social ladder". And he quotes "The principle of equality is a good principle but to treat unequals on equal footing is to perpetuate inequality rather than to maintain equality".

JOB RESERVATIONS

[Continued From Yesterday]

As to the 'injustice' of out of turn promotions, Mussafir, an office superintendent in a Government department says: "On the face of it out of turn promotions do look unjust. But they aren't so in truth. When I joined service as Lower Division Clerk, I was stuck there for 15 years because all my superiors were high-castes who gave me bad reports." This was not, he adds, because he was inefficient but because the high castes could not accept the fact that he could become an officer equal to or above them

As a result of out-of-turn promotion Mussafir is now the head of branch and some clerks who were his colleagues are now working under him Do they resent his new post ing? "Resent is a light word. They hate me and tell all type of 'nonsensical' stories about me behind my back. At first it used to hurt me", he says, "I've got used to it".

LONG TERM BENEFITS

It will certainly take time for such people to be accepted. But when they are it is not just they who will benefit. Lakpa Dandup is a member of a scheduled tribe. 'Due to reservation', he says "I'm the first in my entire village of 50 families to become a graduate and find a job". Now he will marry a girl from his own community, and thus help her and later educate all his children.

According to Roshan Lal, a village level worker, the process of upliftment of scheduled castes and tribes, could transform the social economic status of these people in the next 30 to 40 years provided reservations continue.

"It takes around three generations of continuous education in any society to build up an intellectual tradition," says Roshan Lal. "Ask any high caste whether his grand father was a graduate. You will find that hardly one in 100 will have been one".

The present high standards of education in boys and girls of high castes are, he believes, due to the fact that they are the second or third generation of their families to be educated This will be the case with the reserved communities. True now their educational standards are low, and they can't compete with others but in the next generation the standards will be higher".

As to the lowering of efficiency in services due to reservations, Sri Diwakar, a social worker says: "This is a silly argument indeed. All the candidates holding a job, harijans or high castes possess the same minimum qualifications It doesn't make sense to put the entire blame for inefficiency in public services on reservation".

According to statistics however, most of the reserved seats in the professional colleges remain vacant every year for want of takers, and are later th own open to all. But now that the children of the first generation of employed harijans and tribes are reaching the colleges, these seats which they alone can afford will soon become full. According to many educated and gazetted officers of the reserved community, the motive of anti reservationists is to stop the boys and girls of parents who can afford this education, from getting it.—DEPTH news India

Expansion Of Kudige Dairy

Mysore, June 12

The Kudige Dairy at Kudige in Coorg will be expanded at a cost of Rs 27.5 lakhs. The Karnataka Dairy Development Corporation has accorded sanction for installing a 30,000-litre capacity chilling unit and a processing plant to pasteurise 10 to 15,000 litres of milk.

The Kudige Dairy, situated on a 8.5-acre plot on the Kudige Agricultural Farm Campus, was commissioned in 1958 with a processing plant of a capacity to handle about 2,500 litres milk per day. During the current flush season, the unit procured as much as 15,000 litres of milk, making some temporary arrangements for handling this quantity.

When the unit is expanded, it will be a centre for training in manufacture of various bi-products like sweets.

Sri A. Venugopal, Superintendent of the Kudige Dairy, told a group of newsmen, who visited the unit recently, that the Dairy was one of the earliest dairies to be started in the country. At present it was operating on five milk procurement routes, three in Hassan district and two in Mysore district. The Mallipatna Hassan Route also covered some villages of Coorg District.

In these five routes 65 villages having 65 Amul type societies were being covered. About 6,000 to 7,000 rural farmers were directly involved in getting financial benefits from the Dairy through these societies. This small unit paid its dairy farmers annually about Rs 50 to 60 lakhs towards the cost of milk supplied to it, he said.

GHEE FOR AYYAPPA

Sri Venugopal said the sale of milk had increased to over 9,000 litres during the recent flush season. The distribution covered an area of 250 kms including 26 towns in Coorg district.

The Dairy's bi product ghee was known for its quality and the average sales was about 100 kgs. The ghee was also bought for offering to Lord Ayyappa of Sabarimalai, he said.

The newsmen also visited the Kallahalli and Kailasapura milk producers co-operative societies on the way to Kudige. Messrs I. Srinivasa Rao Managing Director of the Mysore Co operative Milk Producers' Union and M.R.D Gupta, officer in charge of procurement, explained the dairy activities of the societies

Sri R. Rajappa Setty, Consultant Mass Media, Karnataka Dairy Development Corporation accompanied the pressmen

Teachers Concern Over Govt. Move

Mysore, June 14

Four Senate members representing the teachers in the Mysore University Senate have in a joint statement today expressed "serious" concern over the move of the Government to enable itself to take over the constituent under-graduate colleges of the university in Karnataka.

At a time when the UGC was toying with the idea of autonomous colleges, we fail to understand why the Government was proceeding with the step while performance of the University under graduate colleges did not provide any justification at all for such a move, they said.

They have urged the Government to drop the move.

The four teacher-senators are Messrs Dr H. S. Nagarajaiah, M.G Renuka Prasanna, Chambi Purani and V. Chikka Venkatappa.

EGYPTIAN CIVILISATION

Mysore, June 14

Egyptian civilisation was one of the oldest in the world. The famous Pyramids built about 4000 years ago are in good shape and bear testimony to the engineering and architectural skill of the Egyptians. They were equally advanced in mathematics, sculpture, painting and other fine arts as is revealed by several archaeological excavations, said Dr. B. K. Gururaja Rao, Reader in Ancient Indian History, Manasagangotri addressing the Sarvabhisha Saraswathi Sangha.

Menys or Aha was the first king who united the whole of Egypt into a single dominion. The Egyptians worshipped, like the primitive Aryans, the Sun God whom they called Amun or Rha. They believed in a life after death. The king was regarded as a divine being come to earth and on his death going back to the divine world. At the death of the king his soul or Kha would leave the body and come back once a year to reside in it, he said.

To make the stay comfortable, the inmates of the king's harem, his courtezans, court musicians, dancers and all other regal paraphernalia belonging to him used to be buried along with the mummified body of the king inside a big structure in the form of a gigantic pyramid. They developed a technique of embalming the dead body so as to preserve it for several thousands of years, which is a marvel even today. The grandest of the pyramids, the 481 feet tall Giza Pyramid built by King Kufu, had a square base each side measuring 775 feet. The sculptured figures and paintings on the walls of the pyramids furnish an impressive idea of the social life of the people of these times said Dr. Rao.

Prof. M.V. Jambunathan, President of the Sangha welcomed the gathering. Sri R. Krishnamurthy, Retired Head Master proposed vote of thanks.

The Wild Life We Depend On

BY SUJATA ANANDAN

By not looking after wild animals man is putting his own life in danger. If there were no meat - eating animals - the carnivores - then the populations of plant - eating animals like deer would explode and rampage human habitations On the other hand if there were enough carnivores but not enough food for them - as a result of man's hunting of deer, hare and other flesh - they would be forced either to starve or become man - eaters.

The key to the wild life conservation needed to maintain the balance is space to live. While it is true that over - population makes greater food production a necessity, the answer lies not in destroying the forest reserves but in more intensive cultivation. Typical of such a situation is the Gir forests of Gujarat. These forests are the only place in the world where today's Asiatic lions can be found, and even they are endangered species.

The place was made a sanctuary in 1965 when only a handful of these lions remained. Now India's largest wildlife sanctuary, the forests, span semi arid hills with vegetation abounding: mainly teak, acacia and flame-of-the-forest, besides the thorny scrub. The animal population consists commonly of Chital and less commonly of nilgais, four horned antelopes and sambars, wild boars and hares. But the forest is no longer balanced.

Today thousands of domestic cattle graze the Gir forests. These cattle belong to the maldharis - a colourful tribe which has lived there for quite some years. They compete with the herbivorous wild animals for fodder and thereby destory the natural habitat. Hemmed in on all sides by civilisation, these animals of prey are driven to attack cattle, whose disgrun tled owners very often poison the meat, thereby driving the lions to extinction.

Gir lions, a survey report revealed, today live almost entirely on domestic cattle, although very often the animals do not get to eat all of their kill, driven away from it by villagers seeking meat and hide. So it is very necessary that the maldharis and their cattle are moved out of the sanctuary if these last Asiatic lions are to survive.

TIGER DEATHS

The movement of human population : towards natural forests forced animals, not unexpectedly to seek food amoug human beings This starts a panic and in the subsequent hunt several innocent animals have to perish before the man eater is killed. In 1967 alone about 55 tigers were legally shot in India. And some years later 32 were found poisoned in one village in Central India. Not surprisingly the Bengal tiger is seriously under threat of extinction.

But overpopulation and cultivation are not the sole problems of wild life conservation. Poaching has become a highly organised racket. Meat, bones, hides, tusks, oil, fur—in fact every possible benefit man can derive from animals is extracted by poachers despite international and local laws governing the reserves.

Let Us Welcome This Chinese Step

Sir,-We welcome the statement of the present ChineseAmbassador to India, Mr. Chen Ao Yuan that very soon Indian pilgrims would be able to visit the holy Kailas and Mansarovar, situated on the border of Tibet, freely. Visits to these holy places by Indians were stopped after the 1962 Indo-Chinese War.

We sincerely hope that this limited lenience on the part of the present Chinese rulers, who are said to be more liberal and accommodating in their outlook than their predecessors would ultimately lead to normal relations between China and India. We will eagerly wait and watch further steps which China would like to take in this direction.

Mysore, June 17

With a view to streamline distribution of cement in Mysore District, cards would be introduced from July 1, Deputy Commissioner S. Krishna Kumar said yesterday.

Addressing a news conference, he said the position of cement supply was expected to ease from next month when about 8,000 tons are expected to be alloted for the district for the next three months as against the allotment of only 4,900 tons during the last quarter. The requirement of the district was about 14,500 tons.

Permits for 6 74 lakh bags had been issued in the district during the last quarter About 3 28 lakh bags had already been issued on these permits.

A processing of the pending applications revealed that there was an excess demand to the tune of about one lakh bags and this had been eliminated. With the result the pending 1 92 lakh bag demand would be cleared by the end of the month, he said

Wild Life Preservation

(Continued From Yesterday)

Several instances can be cited to prove the point. According to international laws the harpooning of female and young blue whales is strictly forbidden in any sea of the world. Yet the oil from the skin of this whale is too golden a temptation to resist. As a result the blue whale at the rate it is being harpooned will by the end of the century become almost extinct. Poaching of the Indian rhino - the world's only one - horned rhino - in the Kaziranga and Manas sanctuaries of Assam has made their survival most insecure. The case is similar with the wild elephant—hunted for its ivory. Indeed, the African elephant (the only other breed is the Indian elephant) is today on the brink of extinction because of the brutal passion of the hunters for its tusks.

Recently in the news was the controversy in Goa between trawler - owners and local fishermen, the 'Ramponcars', over their respective fishing rights in Goa's share of the sea. This controversy resulted in the Goa market being flooded in July with full - grown mackerels at throw away prices. But July is the time for these fish spawn. So this incident will result in 10,000 less mackerels for each of the full grown mackerel that has been consumed in July. This will not only create a mackerel famine in the sea but also severely disturb the ecology of the ocean.

Similar is the case of the Great Indian Bustard, only a handful of which survive in the Thar desert of Rajasthan. Only timely intervention by the Association for the Conservation of Wild Life saved the species.

USEFUL BUTTERFLIES

We often miss counting insects among wild life and the commonest sufferer of this is the butterfly. Such ignorance led to the large-scale killing of about 600 species of butterfly in the hills of Sikkim some years ago. The place abounded in mosquitoes, and with the massive spraying of DDT the butterflies also perished. Similarly, the spraying of insecticides on plantations and orchards has severely affected the survival of these exquisite creatures. It is essential that some organisation recognise their significance, not only as nature's beautifiers but also as its pollinators.

In the face of all this one might ask if there is any hope for wild animals. But there is no need to be disheartened. Stories of the rescue of wild life have been making the headlines all over the world. Several species on the brink of extinction have now been saved, and although every conservation battle has not yet been fought several areas threatened by modern expansion have in the nick of time been converted into sanctuaries.

Although man has not left a single spot around him untouched, he has succeeded in mingling with his cultivations some of the finest wild life spots in the world. Their preservation, whether by governments, private organisations or individuals should be accorded the utmost priority —DEPTH news India

MILK FROM BEANS - THE SOYA SOLUTION

BY SHOBHA MANE

Dr. S. L. Kothari is a dairyman who says that he has a solution to India's serious problems both of milk shortage and of malnutrition. "Each Indian child should," he says "have a bottle of soyamilk a day".

India's main source of milk is animals. But animals are unable to meet the demands of a rising population. Even the best experiments in cross breeding cannot cope with India's requirement of 60 million tonnes of milk per day in this current year. It takes 1,275 days for the best cross - bred cows to double their milk production, and the maintenance of cross-bred animals is in any case an expensive proposition. They require highly nutritious fodder and concentrate, a moderate climate and modern medical facilities.

Moreover the common Indian cannot buy their milk. In Maharashtra 49 per cent of the population is unable to buy milk unless it is sold at 85 paise per litre. And 93 per cent find it impossible to buy milk from government dairies at Rs 2 per litre ; the government is unable to subsidise it any further.

Milk is required by all age groups. A young person needs 280 grams of milk per day to keep himself vigorous and active. Children need one litre, athletes, industrial workers and other sportsmen need 500 grams and pregnant and lactating women need 750 grams per day.

"The only solution", says Dr Kothari, "is an alternative to animal milk—vegetable milk". Milk can be made from groundnuts and soyabeans. The soyabean is nutritionally superior and in countries like Japan and China it is a major provider of proteins. Soyamilk can be easily and economically prepared and the technology to manufacture it is available indigenously so it should be easy to set up milk extraction units in villages.

Because of their high nutritional value soy-beans are in high demand in the food and antibiotic industries. The bean has 40 per cent protein 20 per cent oil, 4.5 per cent mineral matter, 3.5 per cent fibre, 20 per cent carbohydrate, 0.25 per cent calcium, 0.65 per cent phosphorous and 11 mg iron. Except for methionine, it contains all the 11 essential amino acids in fairly high amounts. The soyabean is also a concentrated source of lysine and contains vitamins A and B. In terms of calories its nutritive value is also very high. Every 100 grams contains 432 calories. It is considered the best vegetable protein source of all

A SOYAMILK FACTORY

Dr. Kothari is the first Indian to develop a scientific method of preparing milk from soyabeans and commercialising it. His little factory in Nagpur provides soyamilk to three leading hospitals in the city and to hundreds of people who have found the drink a very satisfying answer to their milk and energy problems.

I earnestly appeal to all my esteemed voter friends in this constituency to cast their FIRST PREFERENTIAL VOTE in favour of

Sri A. K. SUBBAIAH

I have had the pleasure and opportunity of working with Sri Subbayya in the State Legislative Council (of which I was n Member during 1970 76, thanks to the opportunity given me by my teacher friends), and I have found in him a rare and happy combination of the qualities—character, integrity and a keen sense of public purpose, apart from the already proven parliamentary abilities—we expect of every one of our legislators.

Soyamilk Instead Of Animal Milk

[Continued From Yesterday]

Dr. Kothari started his industrial unit Soyghurt Food Products' in Nagpur in 1974 after resigning from the Food Technology Department of the G. B Pant Agricultural and Technology University, Pantnagar, U. P. At first he produced only 2-4 litres of milk per day. Todayth e produces over 700 litres of which 450 litres are supplied to the hospitals, in place of animal milk, for patients suffering from TB, malnutrition or mental disorders.

At Nagpur's Mayo Hospital children suffering from severe malnutrition were restless, swollen-tummied and dull-eyed and their skin showed unhealthy areas. They were given 400 ml of soyamilk every day for a fortnight. During this time they responded favourably to the new food and showed a marked improvement in growth and well-being. By the end of six weeks all the signs of their abnormalities were gone. The entire cost of the treatment did not exceed Rs. 25 per child per month.

That was in 1978. Since then the city's three main hospitals have been saving Rs 2 lakhs annually on their purchase of soyamilk in lieu of animal milk. The savings come from its low cost, and the absence of pilferage, labour and distribution charges.

In addition to being a health food, soyamilk has other virtues. It can be made very easily available for it is easily cultivable in land suitable for wheat, maize and jowar. The crop takes 100-110 days to mature and a higher yield is possible with good quality seeds, good irrigation and modern agricultural practices. Further, the crop enriches the soil by fixing atmospheric nitrogen.

Soyamilk is also very easily digestible. While animal milk takes about five hours to be digested, soyamilk proteins get digested within three hours and ninety per cent of the proteins are absorbed into the body.

When bottled, it has a long shelf life. Even well after a year it can be used without fear. The milk can be used for tea coffee and curd making and soyabean powder can be used to enrich traditional preparations like chapati sev, bundi, gathia, shrikhand and chutneys.

TAX PROBLEMS

At present Dr. Kothari produces four flavours of soyamilk—vanilla, rose, pineapple and mango; each of these, that is a bottle of 200 ml. costs only 60 paise. Unflavoured milk is just 40 paise—a price that even the poorest can pay to fill his belly.

"My biggest problem today is the taxes and duty on soyabean" says Dr. Kothari. "I want to keep my product at the lowest possible price but the government machiery does not permit this. There are hundreds of irrelevant probings into the unit that are hindering progress like whether soyamilk is a milk or a juice, or what flavours and colourings should be used. I feel strongly that all taxes on a product like soyamilk should go so that even the poorest can buy it and help improve the generally run down health of the nation"

SANJAY GANDHI DIES IN PLANE CRASH

Sri Sanjay Gandhi, son of Prime Minister Indira Gandhi, died in a Glider accident near Willingdon Crescent, near New Delhi, around 8-15 a.m. today. He was aged 33.

ALONG WITH SRI SANJAY GANDHI, WHO WAS PILOTING THE GLIDER, CAPT. SUBASH SAKSENA, ANOTHER OCCUPANT OF THE GLIDER, WAS ALSO KILLED ON THE SPOT.

The plane had taken off from the Safadarjung Airport at 7-58 a.m. Twelve minutes later the control tower lost contact of the plane. Immediately safety vehicles left in search of the plane.

While sailing, the plane hit a tree and crashed on the ground falling into a nullah near Paliha Vihar, near the diplomatic enclave, about 5 kms from the airport. The accident area was soon covered by police and fire brigade.

The body of Sri Gandhi MP and who had been recently appointed as the General Secretary AICC I, was found, half of his head smashed and lying in pool of blood. The brain had spilled out and a fractured leg was cutting out of the aircraft.

The bodies of both Sri Gandhi and Capt Saksena were removed to the Ram Manohar Lohia Hospital, where they were declared dead.

Smt. Gandhi who had meanwhile been informed of the tragic accident rushed to the hospital. The stunning news spread like wild fire in the capital and top leaders and MPs rushed to the hospital to console Smt Gandhi. Former Prime Minister Charan Singh was the first among the Opposition leaders to rush to the hospital.

Later the body of Sri Sanjay Gandhi was brought to Smt Gandhi's residence at No 1. Safdarjung Road over which the ill-fated Single engine two seater glider had passed over a minute before the mishap

The AIR, Delhi Stations, announced the tragic death of Sri Sanjay Gandhi at 12 noon news bulletin

The last rites will take place tomorrow.

TRIBALS FACE THE DROUGHT

BY BHARAT DOGRA

Chitrakut is a famous pilgrimage centre in the Banda district of Uttar Pradesh. Here Lord Rama is believed to have spent his years in exile As we reached it, the monotony of the flat landscape that we had encountered all the way from Banda town was suddenly broken by a series of hillocks, rivulets and forests.

But in the midst of all this picturesque scenery a grim tragedy is being acted out-one of the worst droughts yet to plague the rocky, unirrigated region of Pa ha near the Banda, Allahabad border. Recently a number of starvation deaths have been reported.

The majority of the people here are kol tribals and they are the most seriously affected. Today one can see large numbers of them converging on Banda town it self to draw attention to their mi ery. Having been ruthlessly exploited over the years they now have nothing to fall back on a time of emergency So hunger and malnutrition come much sooner to them than to other sections of the rural population.

THE LOST LAND

The kols depend on agricultural labour and employment in the forests surrounding their villages to eke out a subsistence livelihood. Many of them had owned some land till some years back, but not almost all of this has been usurped by the non-tribal landowners. These along with their armed hoodlums known as 'dadus', dominate the life of this region, despite the numerical majority of the kols.

An agricultural labourer earns an average Rs 3 per working day. But some kols prefer to enter into a sharecropping arrangement with the landowners. This entitles them to one half of the produce but from their share of the crop all expenses incurred in growing it are deducted by the owner. This is an arrangement which leaves sufficient scope for duping the illiterate tribals and depriving them of a large part of their share. The yields in any case in this rocky terrain, in almost unirrigated conditions, are already extremely low, so when they are cheated there is very little left for them.

To supplement their income most kols work as pluckers of the tendu leaves used in the manufacture of bidis The plucking season lasts for one month every summer. But their wages paid on a piece-rate basis, are so low that even after working extremely hard from morning to evening an adult is unable to earn more than Rs 2 50. They cannot command higher wages because of the terror exercised over them by the dauds - who some times raid kol bastis during the busy plucking season to obtain sufficient labour.

VV GIRI DEAD

Sri V.V. Giri, former President of India, died at his Teynampet residence in Madras this morning. Sri Giri who was 85, died in his sleep at about 6 15 a.m.

Sri Giri woke up as usual at 5.30 a.m. and had his wash. He took some dry grapes and a glass of oats. He returned to sleep after 15 minutes advising his grandson, Amarnath Giri, to do so. Amarnath was sleeping beside Sri Giri when the former President, breathed his last.

Before going back to sleep, from which he was not to wake up, Sri Giri asked his attendant to put off the geyser in the bath room. He was found dead a while later by a servant girl.

Sri Giri, who was also the former Governor of Karnataka, is survived by seven daughters and four sons.

Sri Giri is the third former head of the State to die in Madras. The first being Sri C. Rajagopalachari in 1972, followed by Dr. Radhakrishnan in 1974

Sri Varahagiri Venkata Giri was born on Aug. 10, 1894 in Orissa. His father was Jogiah Pantulu He participated in the Satyagraha movement launched by Gandhiji in 1921. He became President of All India Railwaymen's Federation in 1927. He was appointed Minister of Labour & Industry in the first Congress Ministry formed by Sri Rajagopalachari in 1937 in Madras.

Sri Giri was a many splendoured personality combining a freedom fighter, trade unionist, Minister, diplomat, Governor, Vice-President and President, in his career spanning over 65 years. Trade unionism remained his first love till the last

His plunge into the battle for Presidentship all alone without the backing of any major party in 1969 after the death of Dr. Zakir Husain had set a new phase in Indian politics leading to the split in the monolithic Congress Party.

One of Sri Giri's last major act was to write an open letter to Prime Minister Indira Gandhi on Saturday describing it as "my last call to the nation" which prophetically became true.

VV GIRI DEAD

Sri V.V. Giri, former President of India, died at his Teynampet residence in Madras this morning. Sri Giri who was 85, died in his sleep at about 6 15 a.m.

Sri Giri woke up as usual at 5.30 a.m. and had his wash. He took some dry grapes and a glass of oats. He returned to sleep after 15 minut s advising his grandson, Amarnath Giri, to do so. Amarnath was sleeping beside Sri Giri when the former President, breathed his last.

Before going back to sleep, from which he was not to wake up, Sri Giri asked his attendant to put off the geyser in the bath room. He was found dead a while later by a servant girl.

Sri Giri, who was also the former Governor of Karnataka, is survived by seven daughters and four sons.

Sri Giri is the third former head of the State to die in Madras. The first being Sri C. Rajagopalachari in 1972, followed by Dr. Radhakrishnan in 1974

Sri Varahagiri Venkata Giri was born on Aug. 10, 1894 in Orissa. His father was Jogiah P ntulu He participated in the Satyagraha movement launched by Gandhiji in 1921. He became President of All India Railwaymen's Federation in 1927. He was appointed Minister of Labour & Industry in the first Congress Ministry formed by Sri Rajagopalachari in 1937 in Madras.

Sri Giri was a many splendoured personality combining a freedom fighter, trade unionist, Minister, diplomat, Governor, Vice-President and President, in his career spanning over 65 years. Trade unionism remained his first love til the last

His plunge into the battle for Presidentship all alone without the backing of any major party in 1969 after the death of Dr. Zakir Husain had set a new phase in Indian politics leading to the split in the monolithic Congress Party.

One of Sri Giri's last major act was to write an open letter to Prime Minister Indira Gandhi on Saturday describing it as "my last call to the nation" which prophetically became true.

Assembly To Adjourn

(From Our Correspondent)

Bangalore, June 24

The State Assembly, which is scheduled to meet at 12 noon tomorrow, is likely to adjourn after condoling the demises of Messrs Giri, Sanjay Gandhi and Smt. Yashodharamma.

DROUGHT IN U.P.

[Continued From Yesterday]

Some kols collect firewood from the neighbouring forests and sell in the nearby towns. But even these relatively enterprising tribals find their earnings greatly reduced by the petty bribes they have to pay. The kols living further away from the railway station sell the firewood through contractors and earn even less.

DEEP IN DEBT

The kols' low earning forces the moccasionally to take loans from the local landowners. This is often the beginning of a long story of bondage. When the kol cannot pay the high interest and the loan keeps mounting, he is forced to work for the landowner without any pay other other than the food he is given at the work site. So the kols' live from day to day without the security that others get from having stored up grain in their homes.

The relief measures have been some help in confronting the crisis, but not much. Long delays in the payment of foodgrains at some work sites have had a crippling effect on their efforts to survive. The administration has registered the destitute, the disable and very old persons in order to provide them a minimum quantity of free foodgrains. But inquiries in kol bastis revealed that many such persons had been left out.

During a drought year with little agricultural employment kols have become almost entirely dependent on relief works. If timely and regular foodgrains do not reach an adequate number of people, there may be large scale migration of tribals from this region after the tendu plucking season is over.

Apart from starvation the kols also face an acute drinking water problem. There is an ambitious scheme for supplying drinking water to these rocky villages where wells cannot easily be dug. But this ill planned and poorly executed scheme has not been able to quench the thirst of the majority of kols as whatever water is available has been diverted to villages inhabited by influential people. The kols have to fetch dirty water from tanks sometimes several kilometres away from their homes and use it for drinking and cooking. As the summer progresses this problem will become even more acute. The water supply in the tanks will reduce and the concentration of dirt increase.

The problems of the kols are representative of the acute distress faced by many of the rural poor—generally harijans and tribals—who live in drought prone areas. Since these groups are the most exposed to the ravages of drought, special vigilance should be exercised over the relief programmes for them to ensure that irregularities in the distribution of foodgrains are minimized.

But even efficiently administered relief measures can at best provide only a temporary reprieve For a permanent drought seems to have entered their lives. And the plans for longer term development will be necessary to fight the exploitative system fostered by the local vested interests.—DEPTH news India

God-Realisation Explained

Mysore, June 30

Saints and sages of ancient India with keen insight and intuition were able to experience the benign qualities of God as the benefactor of mankind. God is merciful and over solicitous of the well-being and happiness of His devotees. He would never forsake any one placing implicit faith in him and surrendering to Him completely, declared Vidwan Sundara Sampathkumarachar, Sanskrit Pandit, National High School, Bangalore, speaking at the Sarvabhasha Saraswathi Sangha here recently.

Man is prey to avarice, anger, jealousy and other passions which make him unhappy. He can attain true happiness only when he conquers his passions. To this end he should control his wavering and fickle mind, with unswerving faith in God and complete surrender to Him, he said

Earlier, Prof. M V. Jambunathan, President of the Sangha, welcomed the gathering Sri A. S Venkatanathan, Lecturer in Sanskrit, Manasagangotri proposed a vote of thaaks.

RUMOURS MAR CITY'S PEACE

Mysore, July 10

It was around 7-30 p.m. yesterday when suddenly the news spread from one part of the city to another part that violence had erupted again in the southern part of the city and it was spreading.

While some persons asked the shop keepers to pull down their shutters, some autorickshaw drivers went round the areas urging the shop owners to close their shops immediately. Within no time the shop keepers pull down the shutters and life came to almost a stand still even in busy areas like Chamaraja Double Road, Asoka Circle, Santhepet and Sayaji Rao Road.

Autorickshaws and other vehicles took to safety routes. Women and children began running to homes and other safe places where they could get protection.

Meanwhile within about half an hour from 7 30 p.m. to 8 p.m. the Police Control Room received nearly 150-200 phone calls giving false complaints of disturbances in different areas. Police rushed in vehicles to different parts of the city to find to their surprise that but for the scare created by the rumour mongers the situation was totally peaceful.

In vehicles fitted with loud speakers the police went round the city asking the people not to believe the "false rumours" spread by some mischievous persons and assuring them that there was enough police force in the city to safeguard them.

CM HAPPY OVER GOOD RAINS

Mysore, July 11

Chief Minister Gundu Rao today expressed his happiness over the bountiful rains all over the State and said it held bright prospects of a very good crop this season.

Sri Rao, along with his wife, Smt. Varalakshmi Gundu Rao, performed the pooja of Cauvery idol at Krishnarajasagar. They were received with Poorna Kumbha honours by the Deputy Commissioner of Mandya and other officials.

At the idol of the Cauvery, near which a garlanded portrait of Sri M. Visvesvaraya, the architect of the KRS Dam, was also placed, the priests performed the pooja. Both Sri Rao and his wife offered flowers to the Cauvery waters. The priests presented to Sri Rao an 'Anga Vastram' and Smt. Rao a saree.

After the brief pooja ceremony, the Chief Minister addressed the small gathering assembled there and said that rains were so good this year, even the Linganamakki, the source of Sharavathi power, was expected to reach its maximum level, perhaps for the first time, within a week or two.

The Goodess Cauvery was all the more generours this year perhaps because a son of the Coorg soil had become the Chief Minister of Karnataka, he remarked.

The level at the dam when Sri Rao performed pooja was 124 feet, just below the maximum of 124.80 feet.

Dalai Welcomes China's Move

Mysore, July 14

The Dalai Lama, spiritual leader of the Tibetans, on Saturday welcomed the "moderate and reasonable" approach of the Chinese towards the Tibet issue.

Speaking to a party of newsmen at Sera Monastery in Bylakuppe Tibetan resettlement colony, 90 kms from here, he made it clear that although the new move by China was welcome, the main problem of Tibet was yet to be settled. Therefore, at this moment, there was no question of his or his followers returning to Tibet.

He said the six million people in Tibet continued to suffer very much under the Chinese. Unless these six million people were genuinely not artificially satisfied the struggle would continue. He also ruled out the use of violent method by the Tibetans and said it would be "suicidal".

'Asked whether he would go to China if invited by the new Chinese leadership, the Dalai Lama replied, "We will see"

He described the relationship between India and Tibet as "something unique" based on Buddha Dharma

The 46 year-old Tibetan spiritual head will be in Bylakuppe till July 20. He will visit the Hunsur camp on July 20 and Kollegal camp on July 21 & 22

Lest We Forget Sanjay!

Sir, In the demise of our beloved youth leader, Sri Sanjay Gandhi, the country has been orphaned. But for him, our young Sri Gundu Rao would not have become the Chief Minister. Unfortunately public memory is notoriously short and there is grave danger of Sanjayji's name being forgotten. Hence it is urgently necessary to establish a number of institutions and roads in his name. Since this will be very costly, the existing one's could be re named. B.T.K. Iyengar road has already been re namedas Sanjay road Kempegowda road in Bangalore, Bisaveswara road in Mysore, Visweswaraya canal, Krishnarajasagar dam, the new Universities in Mangalore and Gulbarga and Vidhan Soudha are worthy of being considered for the new "namakaranam"ceremony.

It is to be hoped that the YouthCongress (I) will unleash a mighty movement utilising non-violent inspired violence in this cause. May these roads, canals, dams and office always remind us of this Great Leader.

J C Wadeyar Statue

Sir, - Your paper dated 4 7-80 has reported that a statue of Sri Jayachamaraja Wadeyar will be erected near the Southern Gate of the Palace I feel it is not the proper place. It would be better if the statue is erected at the junction of Devaraj Urs Road and Jhansi Lakshmibai Road, in between, Maharani's College, Maharani's College Hostel, Maharaja's High School and Chamundi Guest House. Then the statues of his grand-father and uncle will be on one road. Hence, I appeal to the concerned authorities to erect the statue at the said circle.

Sanskrit Varsity In State Soon, Jatti

Mysore, July 16

The proposal for setting up a Sanskrit University in the State is under the active consideration of the Karnataka Government and its decision is expected to be announced soon, former Vice President B.D. Jatti said here yesterday.

Inaugurating the decennial celebrations of the Sanskrit daily 'Sudharma', Sri Jatti said he strongly supported the plea for a Sanskrit University in the State.

The study of Sanskrit was essential to preserve our great culture. The richness of our culture was in the spiritual field and to realise this greatness the study of Sanskrit works in original was necessary, he said.

He was happy that Dr. H P. Malledevaru was doing research on 'Shivagama' and said that the UGC assistance of Rs 60 000 was insufficient. Over Rs 12 lakhs were needed for research and publication of the 28 Shivagamas and the State Government should come forward to assist the project, Sri Jatti said

Divisional Commissioner B.R Prabhakar, who was the chief guest suggested parents to make their children learn Sanskrit at least for one or two years during their school days.

Sri Shivaratri Rajend a Swamiji of Suttur Mutt, who presided, regretted that Indians were forgetting their own culture by ignoring the study of Sanskrit.

Sri H. Gangadharan, MLA criticised the opposition for retaining Sanskrit as one of the major languages in schools

All the speakers complimented Sri Vardaraja Iyengar, the Editor, for his missionary zeal

Sri H. V. Nagaraj welcomed the gathering Sri K V. Srinivasa Prasad read the messages.

READERS FORUM

Table Tennis

Sir,-The Mysore District Table Tennis Association had arranged table tennis matches at the University Gymnasium from July 3 to 6, both days inclusive. More than 200 representatives from many States participated. The matches were interesting.

The game, table tennis, was once considered a ladies game. But it is no longer so. It is a very strenous game requiring high skill, quick reflexes and extreme watchfulness to force one's ways to victory. The table is small, and within it one has to return the ball, place it and smash it with precision.

If one compares the modern game with the old one, the modern game is more exciting. Even women no longer simply return ball after ball. They smash even as men do. This would have been obvious if the game of Chandrasekar and the game Indu Puri the winners in men's singles had been witnessed.

The game is now far more interesting to witness than ever it was. Thanks to the Association, the lovers of table tennis in Mysore had a feast. Congratulations to the winners and good luck to the others in the future matches.

Vedanta Desikar's Greatness Extolled

Mysore, July 28

At a time when Buddhism had almost enveloped the whole of India, it was Shankaracharya who rehabilitated and re-established Hinduism. Vedanta Desikar several centuries later also contributed to the propagation of Hinduism, though he was a protagonist of Vishishtaadwaita philosophy different from the Adwaita philosophy of Shankarcharya, said Vidwan S. Raghavan, Lecturer, Sharada Vilas College of Education while speaking at the Sarvabhasha Saraswathi Sangha here recently.

Vedanta Desikar whose childhood name was Venkatanatha was a precocious child and he surpassed his preceptor in scholarship. He lived up to the ripe age of 101 years and was the author of 120 works both in Sanskrit and in Tamil, which include poetry, prose and drama, he said.

Accepting a challenge from an adversary, he composed during one single night the 'Paduka Sahasram", a poetic work of 1000 stanzas He emphasised the principle of "Saranagathi" or complete surrender to God as an easy means of salvation. He declined the invitation of Vidyaranya to become the Court poet of the Vijayanagar king, as he wanted to serve none but God, said Vid. Raghavan. Earlier Prof. M. V. Jambunathan President of the Sangha welcomed the gathering Sri B. Anantha rama Iyengar proposed a vote of thanks

Opposition Begins Dharna In House

(From Our Correspondent)

Bangalore, July 29

The entire Opposition began Dharna in front of the Speaker's chair this morning in the Assembly demanding judicial enquiry into the police firings and violent incidents in North Karnataka and the resignation of the Gundu Rao Government.

Opposition leader S. R. Bommai charged that the whole State was under "Police Raj" with unprovoked police firings. He demanded judicial enquiry and resignation of the Ministry. Admist confusion, Finance Minister Moily said that the proceedings were not going in order. Speaker Venkataramana adjourned the House for 30 minutes, just seven minutes after the House began the sitting. Opposition members are still sitting in the aisle.

Congress (U) President Devaraj Urs arrived later and is having discussion with his colleagues.

Vedanta Desikar's Greatness Extolled

Mysore, July 28

At a time when Buddhism had almost enveloped the whole of India, it was Shankaracharya who rehabilitated and re-established Hinduism. Vedanta Desikar several centuries later also contributed to the propagation of Hinduism, though he was a protagonist of Vishishtaadwaita philosophy different from the Adwaita philosophy of Shankarcharya, said Vidwan S. Raghavan, Lecturer, Sharada Vilas College of Education while speaking at the Sarvabhasha Saraswathi Sangha here recently.

Vedanta Desikar whose childhood name was Venkatanatha was a precocious child and he surpassed his preceptor in scholarship. He lived up to the ripe age of 101 years and was the author of 120 works both in Sanskrit and in Tamil, which include poetry, prose and drama, he said.

Accepting a challenge from an adversary, he composed during one single night the 'Paduka Sahsram", a poetic work of 1000 stanzas He emphasised the principle of "Saranagathi" or complete surrender to God as an easy means of salvation. He declined the invitation of Vidyaranya to become the Court poet of the Vijayanagar king, as he wanted to serve none but God, said Vid. Raghavan. Earlier Prof. M. V. Jambunathan President of the Sangha welcomed the gathering Sri B. Anantharama Iyengar proposed a vote of thanks

Bogus Voting In Varsity Poll ?

Mysore, Aug. 4

A large number of bogus voting is alleged to have taken place in the Mysore University Senate and Academic Council elections held on Aug. 2 and 3.

The elections to the Senate from the registered graduates' general constituency was conducted on Aug. 2 and from the teachers' constituency onAug. 3. Elections to the Academic Council also took place yesterday.

Bogus voting was possible particularly on Aug. 2 because of the last minute withdrawal of the condition regarding the production of intimation cards at the time of voting, it is stated.

In view of the delay in mailing the intimation cards to voters, the order was withdrawn through a press note. The Presiding Officers of polling centres were instructed to permit voters who had not received the intimation cards to exercise their franchise.

Out of the four polling centres in the city, large scale bogus voting took place at the Fine Arts College, it is alleged. Compiaints were being heard from voters and some candidates of bogus voting at Maharaja's College centre also.

Sri L. Chikkarangappa, President, City Congress (U) Committee, has alleged that the withdrawal of the order on the identification cards had given opportunity for bogus voting. He has demanded a thorough enquiry.

The counting of votes will begin tomorrow at the University Gymnasium at 11 a.m.

RAFI A GREAT SINGER

(SHEKAR)

MOHAMMED RAFI, one of the greatest playback singers of the Hindi film world, is dead. What a terrible blow to the lovers of Rafi! A part of the music industry of the Hindi film land has collapsed It's so pathetic —"Kabhi na Kabhi se Kisina Kisi...."

The 55 year old 'King of Singers' died at Bombay Hospital of a cardiac arrest on July 31 at 10 25 p m At about 9 in the morning he complained of chest pain and thought it was due to gastric trouble. However, he was taken to a doctor who referred him to National Hospital at Mahim, where ECG and other examination were done But his condition began to sink.

From the Mahim Hospital, he was taken to Bombay Hospital. "Pacing" was done at 8 p.m and his condition improved slightly. He was then put under sedatives. But at 10.25 p m. he breathed his last His wife, daughter, son in-law were at his bedside when he passed away.

Born on December 24, 1924, at Koila, Sultan Singh District, near Lahore (now Pakistan), Rafi made his entry as a playback singer in 1942. His first song was in Punjabi. His first Hindi song was for "Gaaon Ki Gori" starring songstress Noor Jehan.

When the father of the nation, Bapu, passed away, Rafi sang a moving song—"Suno Suno O Duniya Walo Bapuji Ki Amar Kahani". The song, which is so emotional and patriotic, it remains a touching tribute to Gandhiji even today. Rafi became popular through this song.

Naushad, the acclaimed music director, broughtRafi to the peak through "Baiju Bawra" in 1952. Who can forget Rafi's famous song "Jeevan Apna Vapas Lele Jeevan Denevale"?.

From there Rafi never looked back. He held an unchallenged position in theHindi film industry till 1968, when he had tough time competing with Kishore Kumar. Rafi regained the well deserved top position through "Hum Kisise Kum Naheen".

Mohammed Rafi is perhaps the only playback singer who has sung for all leading heroes of Hindi screen.

Shammi Kapoor became famous because of Rafi's tilting songs in films like "Kashmir Ki Kali", "An Evening In Paris". Rafi's voice suited the big stars like Rajendra Kumar, Dilip Kumar, RajeshKhanna and Rishi Kapoor.

The great singer was equally good in ghazals, bhajans, qawwalis, patriotic songs, light and classical music. His tribal songs like "Ramaiah Vasthavayya", patriotic songs like"Aae Bharat Desh Hamara", emotional songs like "Chowdaveenka ChanduHo" are well known hits. His latest award winning hit was "Kya Hoova Tera Vaada Woh Qasam Woh Irada",

Rafi is dead, but his songs will remain for decades to come. The versatile playback singer has sung in several Indian languages including Kannada—"Onde Balliya Hoogalu". His haunting melodies will continue to linger in the minds of the music lovers. He remains immortalised in his songs—not one or two, but several of them—"Meri Kahani Bhoolane Wale", "O Duniyake Rakhwale", "Chal Udjaare Panchi", "Ye Mera Prema Patra Padkhar", "Na Mai Bhagwan Hoon, Na Mai Shaitaan Hoon" .....The list is endless.

Although he was gifted with melodious voice, Rafi remained a humble singer and dedicatedly a religious man.

Rafi is no more—"Kabhi Sukh Hai, Kabhi Dukh Hai"

Vachana Sahitya - A Unique Creation

Mysore, Aug 5

In the initial stages of Kannada literary growth, an ostentatious display of scholarship in Sanskrit was a sine qua non for an author to get proper recognition. The Sivasaranas of the 12th Century made history by taking a bold course and giving a new turn to Kannada literature. They ushered in the Vachana literature, consisting of prose compositions in simple Kannada easily comprehended by the common folk This may be regarded as a unique contribution of the Veerasaivas, said Sri N. Nanjundaswamy, Research Assistant, Epigraphy Department, Government of India, while speaking at the Saryabhasha Saraswathi Sangha here recently.

The Anubhava Mantapa Assembly was the forum for the Veerasaivas. They opposed caste distinctions and considered all human beings as equals irrespective of their birth. Allama Prabhu, Basaveswara, Jedara Dasimaiya, Madivala Machiah, Dohare Kakkaiya, Ambigara Chowdiah, Akka Mahadevi - persons from different castes all participated as equals in the Anubhava Mantapa. With great fervour they preached the Bhakti cult and tried to upiift the masses, said Sri Nanjundaswamy. Prof. M. V. Jambunathan welcomed the gathering. The Sevarthadar of the day, Dr. Jawaharlal Handoo, Assistant Director, Central Institute of Indian Languages proposed a vote of thanks.

Statue Of Jayachamaraja Wadeyar

Sir-Regarding the installation of the statue of late Sri Jayachamarajendra Wadeyar - the ideal place where this statue could be erected is the place where the Jhansi Lakshmibai Road and Sri D. Devaraj Urs Road meet.

The next place suitable for the installation would be the circle in front of the Public Library, near the Ayurvedic College

The main reason for suggesting the place opposite the Public Library is that the Dasara procession which passes through this Road would pass through this statue, as well as the other two statues of the Maharajas.

Expansion Of State Ministry Soon ?

(From Our Correspondent)

Thick rumours have started here that Chief Minister Gundu Rao will reconstitute his Ministry soon.

The Chief Minister is likely to visit New Delhi on Aug. 8 for a discussion with the Congress High Command on the reconstitution of the Ministry and other developments in the State.

Meanwhile, it is learnt that Food and Labour Minister C.M. Ibrahim has rejected a request made by the Chief Minister to submit his resignation.

It is to be seen whether Sri Rao will accommodate those who had joined the party after the Lok Sabha elections. Sri Rao is also likely to discuss this matter with the party high ups.

Even while these members have kept their fingers crossed, more legislators from the Congress (I) and Janata Party are showing their eagerness to join the ruling party. Some of them have been tempted with lucrative positions in some of the boards and corporations to be reconstituted soon, it is said.

The names of KPCC (U) President Harnahalli Ramaswamy and Smt. S. Pramila (JP) are being mentioned in this connection.

Minor injuries were caused to three policemen when a few boys pelted stones at the police bus near Sita Vilas Choultry. STATUE AT HARDINGE CIRCLE

Sir,-A suggestion has been made in your daily that a statue of Sri Jayachamarajendra Wadeyar should be erected near the junction of Devaraj Urs Road and Jhansi Lakshmibai Road

I feel it is not the proper place, because this junction is very congested It would be better if the statue is erected at the Hardinge Circle. Then all the three statues will be on one road.

Otherwise, it is better to erect the statue at the Southern Gate of the Palace. This circle also provides abundant space for the statue.

Hence, I appeal to the concerned authorities to consider these places.

No Set Back To Party, Urs

(From Our Correspondent)

Bangalore, Aug. 8

Congress (U) President Devaraj Urs said today that the resignation of KPCC (U) President Haranahally Ramaswamy from the party would have no effect on the party but would only boomerang on Sri Ramaswamy and his followers.

He denied that Sri Ramaswamy had shown any inclination earlier to quit the party. So far no member had told of him of his decision to leave the party, Sri Urs said

The Congress (U) President later left for Delhi to take part in the party's Working Committee meeting on Aug. 10.

Sri Urs, who toured the affected parts of Northern Karnataka, wanted all those persons arrested in connection with the ryots' agitation should be released and compensation paid to the victims.

Flavoured Tea

Mysore, Aug 8

The Central Food Technological Research Institute has developed know-how for a variety of flavoured tea beverages.

It has developed a laboratory scale process for incorporating natural essential oils into the tea. An important feature of this method is that the rich flavour notes of the essential oil blend smoothly with natural tea flavour. Rose, cardamom, ginger, Bergamot, orange and lime flavoured tea beverages have been prepared and found acceptable.

In view of the advances made by the Institute in developing know-how for a variety of flavoured tea beverages, the Tea Board has sponsored a time-bound research project for upscaling the laboratory process for commercial use.

Flavoured teas are in use in USA, the UK and other West European countries. Their popularity has increased in recent years.
